VOL 93 NO. 116

VICTORIA, B.C., THURSDAY, NOVEMBER 17, 1938—18 PAGES

PRICE FIVE CENTS

Youths Lead Police To Stolen Jewellery

Articles Taken in Series of Robberies Identified
Three Lads Arrested

Jewelry and miscellaneous articles valued in the neighborhood of \$2,000 were recovered by police of Greater Victoria overnight from a series of caches shown them by youths arrested shortly after a daylight robbery on the outskirts of Victoria yesterday morning.

Police officials of Victoria, Saanich, Oak Bay and Esquimalt, said this morning recovery of the loot would solve numerous house-breaking during recent weeks. A large portion of the recovered property has been identified while the remainder is awaiting identification.

The arrest of the three youths, one a 19-year-old boy and the other two 17-year-old juveniles, culminated an intense investigation on the part of Greater Victoria police which covered the last few weeks since the lads first came under suspicion.

Police said they were seen to walk into a house on Foul Bay Road yesterday by two members of the Saanich force who had been "shadowing" them for several days. A few minutes after they left the house they were arrested by Oak Bay police on Lansdowne Road.

The biggest cache located so far by police was found last night at the corner of Burnside and Admirals Road in the bush.

FLASHED IN BUSH

Police said as they flashed their lights on the bush, they saw one of the youths throw a cache of jewelry and other growth littered with various types of jewelry which were strewn around.

A large portion of this cache was identified as jewelry taken from the home of E. W. Izard, Arundel Drive, last Saturday morning, between 9 and 12 noon.

In another cache on Bewdley Avenue were found two watches owned by Norman Patterson, Woodway Avenue, whose home was recently entered.

A third cache was found in a shed at the rear of one of the boy's homes. A watch stolen from William Gill, 851 Craigflower Road, was recovered from a Hindu who reported he bought it from one of the youths. A set of gold scales, also taken from the Gill home, was recovered.

Police said there would be charges in the city, Saanich, Oak Bay and Esquimalt courts as a result of the recovery, but further identification is being awaited before these charges are laid.

A set containing half a dozen knives, forks, teaspoons and dessertspoons was recovered from a secondhand dealer who paid the youths \$3.50 for it.

Among the stolen articles were two cameo brooches, a diamond clip, gold miniature, pearl-studded locket, blue stone pendant necklace, purple, ultra-ray flashlight, diamond brooch, diamond pendant, silver brooch, diamond tielip, diamond heart-shaped ornament, clip diamond ornament, small bar diamond ornament, glass cat's-eye, small dynamo, oval-shaped gold frame, a buckskin glove and ornamental necklace of carved wood.

In addition there were some uncut diamonds found in envelopes.

THE WEATHER

VICTORIA, 8 a.m. today—Pressure remains abnormally high south of Vancouver Island and it appears low northwest of Queen Charlotte Islands. The weather has been showery and mild in most parts of British Columbia. It is cloudy in the prairie provinces and becoming somewhat colder.
Victoria—Barometer, 30.30; temperature, max. 50, min. 46; wind, 24 miles W.; precip. 0.02; cloudy.

Three Trustees Seek Re-election

P. E. George, R. F. Green And Mrs. A. S. Christie All to Stand Again

The three retiring members of the City School Board, Trustees Percy E. George, Robert F. Green and Mrs. A. S. Christie, will all seek re-election in the civic elections next month, they announced today.

A fourth vacancy will also be open to contest to fill the seat of the late Trustee John Wallace. This will be for a one-year term.

Trustee George is seeking his ninth year as a member of the school board. For the last year he has been chairman of the board and during the previous two years was works and grounds chairman. As an active worker in school matters he at present holds the positions of vice-president of the B.C. Trustees' Association, president of the Local Council of Parent-Teacher Associations and president of the Quadra Parent-Teacher Association. He is also active in the work of the Chamber of Commerce.

Trustees Green and Mrs. Christie have each completed their first year on the board. Mr. Green was returned in the by-election necessitated by the resignation of W. C. Moresby, K.C., and Mrs. Christie completed the unfinished term of ex-Trustee Mrs. D. L. MacLaurin.

To date no other candidates have been announced for school board.

Government Aids Cities on Relief

B.C. Increases Contribution for Unemployables By One-half

Municipalities of British Columbia will be relieved of unemployment relief costs amounting to \$140,000 a year by a new arrangement of costs announced today by Premier T. D. Pattullo.

The government, the Premier said, has agreed to pay 60 per cent of the cost of relief for unemployable persons. The cities will pay the other 40 per cent.

Up to now the government has paid 40 per cent and the cities 60 per cent.

On a total bill of \$700,000 a year for relief of unemployable persons the province will thus increase its contribution from \$280,000 to \$420,000, and the municipalities will save accordingly.

Today's announcement marked another step in the long-standing dispute between the municipalities and the government over the charges for relief.

When unemployables and employables were segregated in the relief lists, the cities were called upon to pay the full cost of assistance to the unemployables. They protested they could not possibly pay this charge and the government agreed to meet 40 per cent. Subsequent representations by civic leaders culminated in today's announcement that this contribution will be raised to 60 per cent.

On ordinary relief of employable persons the government pays 80 per cent and the cities 20 per cent.

Christmas Bonus For Relief Cases

Hon. George S. Pearson, Minister of Labor, announced today special bonuses will be paid unemployed on relief for Christmas.

The bonuses will be \$3.20 per family and \$1.20 for single persons. Total cost to the government is estimated at \$60,000.

According to a circular going out from the relief department the bonuses should be paid after December 15, and preferably during Christmas week.

Nobel Prize to Nansen Office

OSLO (AP)—The 1938 Nobel Peace Prize was awarded today to the Nansen office for refugees at Geneva.

It was the fourth time the famous award had gone to an institution rather than an individual. The 1922 prize was awarded to the late Fridtjof Nansen of Norway, whose name was given to the office honored today.

CANDIDATE—Colonel Nelson Spencer, above, announced today he intended to file nomination papers for Vancouver mayoralty election December 14.

Raise Benefits For Workmen

Compensation Rates To Be Increased in British Columbia

Important changes in the Workmen's Compensation Act of British Columbia will be submitted to the Legislature shortly.

Under plans worked out by Hon. George S. Pearson, Minister of Labor, with compensation board officials, benefits for workmen will be increased in several respects.

The most striking change will be to increase from 62 1/2 per cent to 66 2/3 per cent, of average wages, the maximum compensation allowed. This will bring the province in line with compensation paid in other provinces of Canada and will cost the fund about \$150,000 a year.

Another alteration will increase funeral benefits from \$100 to \$125.

Allowances for widows will be raised from \$35 to \$40 a month by rearranging the distribution of a surplus built up in the allowances for dependents of men killed in industry who live in foreign countries. At present the act calls for distribution of this surplus every six months, which is found to be difficult. It will be used to increase the widows' allowances.

A further change will increase the responsibility of employers in seeing that safety regulations are carried out. At present employers have to pay a special penalty assessment equal to half the compensation up to \$300 if it is found they have broken regulations. The new clause will leave the assessment up to \$300 if the accident is due to gross negligence or if an employer failed to adopt reasonable means to prevent it.

NEW BATTLE IN NORTHEAST SPAIN

Loyalists Drive Toward Trep in Effort to Retake Power Plants

HENDAYE, France (AP)—Spanish government forces, thrust back to the Ebro River's east bank, today stepped up a new offensive farther north in an attempt to recapture the Trep power plants, which formerly fed Barcelona.

The plants, taken by the insurgents April 7, also supplied power for many war industries of the Barcelona region. Trep is 40 miles northeast of Lerida in northern Catalonia.

While militiamen moved toward Trep, other government forces prepared to launch attacks along the Segre River, where they have established a sector 12 miles long and three miles deep in a 10-day offensive.

The insurgents cleaned up the Ebro River's west bank and declared they had taken many prisoners in the Sierra de Fatarella, near the Ebro's bend. Government dispatches, however, said "neither a single soldier nor a single rifle remained in the enemy's power."

Gas Price Cut Aimed at Local Evil, Says Wismer

Not General Regulation of Trade, Appeal Court Told

Injunction Argued

VANCOUVER (CP)—A British Columbia fuel board order reducing the price of gasoline sold in the province was not intended to regulate trade and commerce but to overcome a "local evil" occasioned by "wasteful and extravagant gasoline distribution," Attorney-General Gordon Wismer contended today in the British Columbia Court of Appeal today.

One of the principal arguments used by nine gasoline distributing firms in obtaining an injunction against the order was that it infringed on the trade and commerce field, a Dominion Government responsibility.

Mr. Wismer, presenting the Crown's appeal from the injunction order issued several weeks ago by Mr. Justice A. M. Manson of the B.C. Supreme Court, claimed the Liquor Prohibition Act repealed some years ago by the British Columbia Legislature, in favor of a liquor control measure, interfered "much more with importation of foreign products."

The Provincial Coal and Petroleum Control Board Act, on which the British Columbia Fuel Board based its gasoline price reduction order, merely fixed prices.

FARRIS ARGUMENT

The argument submitted by Senator J. W. de B. Farris before Mr. Justice Manson was unimpaired by the oil companies' counsel contended the provincial legislature was attempting to pass on the price reduction to oil producing companies in California, he argued.

Senator Farris, Mr. Wismer said, had tried to prove the report of Mr. Justice M. A. Macdonald, commissioner who investigated the coal and petroleum industries for the provincial government, had been used as basis for the control act. The report dealt with matters outside the provincial jurisdiction.

"Both Mr. Justice Macdonald and the provincial Legislature realized there were some matters in the report outside provincial jurisdiction," Mr. Wismer said.

IN PROVINCE

"But on the face of it, the control board order deals only with matters of concern within the province only—the setting of the retail price of gasoline."

"This is a matter of property and civil rights—not a matter of trade and commerce, which is a Dominion field."

The Manson Injunction order restrained the fuel control board from putting into effect gasoline price reduction ranging from 3c to 6c in various sections of the province.

Because the control act was not ambiguous, the Macdonald report, a legislative history, should not be introduced in evidence, Mr. Wismer said. However, if it was admitted as counsel for the oil companies asked, that was no proof the Legislature had been implementing the entire report in passing its act.

EYES ON CALIFORNIA

"The Legislature was faced by a finding (in the report) that the public in British Columbia is being milked by the oil barons of California," he said. "My learned friend (Senator Farris) says we can't do anything about it."

"There is no authority in Canada that can fix these prices if the provincial Legislature can't do it."

"We are going to fix gasoline prices in British Columbia, and I say we are justified in doing so."

The appeal, being heard by Chief Justice Archer Martin, Mr. Justice Gordon Sloan and Mr. Justice W. G. McQuarrie, continued this afternoon.

Albertans Win Prizes for Oats

TORONTO (CP)—William Justyn Rigby, 20, a junior farmer from Wembley, Alta., today won the Canadian grand championship in oats at the Royal Winter Fair here, displaying a Victory variety. Runner up was Victor Watson, Airdrie, Alta., also with Victory. They were selected from six prize winners in different classes.

Premier King And Roosevelt Discuss Defence

All Canada-U.S. Relations Topics at White House

Neighborly Aid

WASHINGTON (CP)—Prime Minister King told a press conference today he hoped his overnight stay at the White House would provide an opportunity for frank discussion with President Roosevelt of all the aspects of Canada-United States relations, including defence.

PRIME MINISTER KING

(President Roosevelt, at his press conference Tuesday, said he planned to develop a U.S. air force which would be capable of protecting the entire western hemisphere, including Canada, from any foreign aggression.)

Mr. King remarked today: "The more secure we make our own defence the more we help our neighbors."

Mr. King said the question of Canada joining the Pan-American Union had been discussed in the past and might arise during conversations here. He said he did not know whether Canada would send an observer to the forthcoming Pan-American conference in Lima, Peru.

Mr. King said he regarded President Roosevelt's continental defence remarks this week as an amplification of what the President had said at the bridge dedication at Kingston, Ont., last summer, when he remarked the United States would not stand idly by if Canada were attacked.

"The President's view was much appreciated in Canada," Mr. King said.

"It must be increasingly apparent," the Prime Minister added, "that the stability of the civilization we cherish depends more than ever on the friendly association of the great English-speaking nations of the old world and the new."

NEW PACTS SEEN AS NOTICE TO GERMANY

New York Herald Tribune Dispatch on Canada-U.S. British Trade

NEW YORK (AP)—Signing of trade pacts between Canada and the United States and Great Britain and the United States today was termed "an international and economic gesture of the first importance" in a Washington dispatch to the New York Herald-Tribune, Republican.

The dispatch pointed out the two agreements were signed in the U.S. capital close on the heels of the rebukes President Roosevelt and State Secretary Hull administered to Nazi Germany for its violence against Jews and Roman Catholics.

"The staging of the pact-signing is calculated by officials to be notice to Germany and the dictator states of the closer bonds which the democracies are cementing among themselves," it said. "That the bonds also will be mutually profitable in an economic and monetary fashion is a teaching which officials here would like to impress on Germany."

Pacts for Great Canadian, British, U.S. Trade Signed

Wheat Preference Ends

NEW YORK (AP)—Dow Jones and Co., financial news agency, said today it had learned the trade treaties signed at Washington late today provided for abandonment by Canada of the six-cents-a-bushel preferential tariff, it has enjoyed on wheat shipped to the United Kingdom via an All-British route.

The agency said the result of the preference, in effect since the empire trade agreements of 1932, had been to divert most of the Canadian grain traffic from north-eastern United States ports to Montreal, Saint John and Halifax.

The agency said the move "is considered likely to restore to United States Atlantic ports a large share of the export grain traffic."

U.S. Greeting For Premier

WASHINGTON (CP)—Prime Minister King was welcomed by a distinguished company when he arrived here early this afternoon to sign the Canadian-United States reciprocal trade treaty at the White House later in the day.

The Prime Minister, accompanied by Dr. O. D. Skelton, Canadian Under-Secretary for External Affairs, was greeted by an official delegation headed by Cordell Hull, United States Secretary of State, and Marvin H. McIntyre, representing President Roosevelt.

Sir Herbert Marler, Canadian minister to the United States, headed a welcoming delegation from the Dominion's legation. Six ranking officers of the United States State Department and military and naval aides also were on hand as the train bearing the Prime Minister and Dr. Skelton pulled into union station.

Mr. King and Secretary Hull conversed jovially as they left the station. The Prime Minister and Dr. Skelton entered White House automobiles and were drawn to the Canadian legation in brilliant sunshine.

Canada Loan Quickly Raised

Broad Demand Among U.S. Underwriters for \$40,000,000 Refunding Issue

NEW YORK (AP)—Underwriters who today publicly offered an issue of Canadian Government 3 per cent refunding bonds, totaling \$40,000,000, reported they had quickly disposed of the loan to dealers and institutional investors. Demand, they said, came from all sections of the country and from abroad.

The issue was offered at 97 1/2 per cent and quickly went to a small premium in the over-the-counter market where bids of 97 3/4 were reported.

The loan represented the first important Canadian financing in the New York market in about two years.

KING AND QUEEN TO VISIT ROUMANIA

Report Heard as \$100,000,000 British Loan Discussed

LONDON (CP-Havas)—The Bucharest correspondent of the London Daily Herald reported today he understood King George and Queen Elizabeth would visit Roumania next autumn to return the current visit to London of King Carol.

Their Majesties, the correspondent said, would go to a Roumanian Black Sea port aboard a warship and stop at Istanbul, Turkey, on their way home. The King and Queen already have announced plans for visiting Canada and the United States early next summer.

In connection with King Carol's visit here, the Financial News reported the British government and Roumanian experts are now negotiating extension of £20,000,000 (\$100,000,000) in commercial credits to Roumania. Part of this would be made up of export credits and the rest would be a loan for the purchase of armaments.

Conservatives Move Again on Orientals

A new attempt to get the Oriental question to the floor of the Legislature was planned today by Capt. Macgregor Macintosh, Conservative, The Islands, whose motion asking Oriental exclusion was ruled out of order yesterday.

Mr. Macintosh announced today he would seek to move on Monday that the Legislature petition Ottawa to abrogate Canada's gentleman's agreement with Japan under which 150 Japanese immigrants to Canada are allowed each year.

Threat in Notes to Vancouver Family

VANCOUVER (CP)—Vancouver police said today two threatening letters received by Henry Eppinger last night were probably the work of youths.

"I'll murder you tonight," were the words printed on both the notes, found inside the Eppinger home here. One was signed "B.L." and the other "B.L."

Premier King Acts For Dominion At Washington

Roosevelt Looks On

WASHINGTON (CP)—Canada and the United States, and the United Kingdom and the United States, the latter two enjoying two-fifths of the world's trade, today signed reciprocal trade agreements establishing new economic ties.

In a momentous ceremony in the mirrored, gilded east room of the White House, Prime Minister King signed for Canada, Secretary of State Cordell Hull for the United States and the British Ambassador, Sir Ronald Lindsay, and Arnold Overton, second secretary of the British Board of Trade, for the United Kingdom, Northern Ireland, Newfoundland and the British Empire colonies.

In a brief address at the ceremony, the Canadian Prime Minister said it was "not exaggeration" to say relations between the Dominion and the United States have never been happier than since they signed their first trade agreement in 1935.

That agreement will expire this December 31.

Mr. Hull said the signing of the broad pacts was of historic significance and that they "furnish concrete and powerful support for a future trend of world developments along the lines of increasing understanding and co-operation among nations."

WITNESSED BY PRESIDENT

President Roosevelt, attending the ceremony as an "interested observer," sat at the centre of a long table facing the lobby of the executive mansion.

The British ambassador said he shared fully Mr. Hull's sentiments "as to the promise for improvement in relations among nations which grows out of international negotiations of the kind which have been so happily concluded."

Mr. King expressed "genuine satisfaction" that the United States and Great Britain, "with whose fortunes those of Canada are so closely linked, have effectively strengthened the friendly relations which have long prevailed."

WORLD BASIS

Secretary Hull commented that the three nations "have given a new vitality to the basic principles of a civilized world order, the acceptance and application of which are indispensable to economic well-being and social security within nations, to peaceful relations between nations, and, therefore, to the continued advancement and progress of mankind."

Mr. Hull said the two agreements "not only... provide an instrument for an expansion of valuable commerce between the countries concerned, but they constitute an expression of determination on the part of three of the world's largest commercial nations to maintain and strengthen a sound and healthy basis of international trade."

WASHINGTON (CP)—Nine months of negotiations reached their climax today, with the signing of trade agreements between Canada and the United States and between the United States and Great Britain. The Canadian agreement replaces the present reciprocal pact which will expire December 31.

The agreements embody tariff schedule changes in more than 2,000 items.

In unofficial discussions before the signing it was said Canada stood to lose part of the preferences which Canadian goods now enjoy in the United Kingdom market as compared with American goods. But on the other hand, Canada would receive advantages as both Great Britain and the United States were lowering tariff schedules against certain Canadian goods.

Thus the effect of the pacts will be far reaching for Canadian commerce and industry.

United States wheat will be able to enter the United Kingdom market on a more equitable basis with Canadian wheat by reduction of the six-cents-a-bushel preference on Empire wheat and several other British preferences, contained in the Ottawa agreements, will be pared. In return for this the new pacts will contain items designed to aid other sections of Dominion commerce, such as the fish industry of the Maritime Provinces and British Columbia.

Japanese Fly Far West Over China

SHANGHAI (AP)—Japanese said Thursday their air force based at Hankow had penetrated to the far northwest in a raid on Lanchow, capital of Kansu province, which borders on Tibet and Mongolia.

The raid conformed to the declaration Japanese would carry the war to the inland border provinces to cut Chinese communications with Russia, Burma and India.

Five Reasons Against Health Insurance Given

Commission Reports Why Doctors Blocked Plan in B.C.

Costs Stated

Responsibility for the failure of government health insurance to go into operation was placed on the medical profession by the report of the Health Insurance Commission tabled in the Legislature yesterday by Hon. G. M. Weir, Provincial Secretary.

The doctors, says the report, objected to the scheme on five grounds:

1. It made no provision to care for indigents.
2. It made no provision for other groups of limited means.
3. There was a lack of hospital accommodation in the province to handle all cases.

4. The rate of payment proposed for doctors was inadequate.
5. The panel system for doctors would lower medical standards.

For these reasons, the board reported, it could not reach a satisfactory agreement with the College of Physicians and Surgeons.

It had made an agreement with the B.C. Hospitals Association for the basis of remuneration for patients and was negotiating with the Pharmaceutical Association on payment for drugs when the impasse with the doctors interrupted them.

"The commission and a skeleton staff has occupied itself with further fact finding and administrative problems," the report says.

It shows that total government expenditure on health insurance up to last December 31 was \$107,300, of which \$58,058 went on salaries, \$4,812 on rent, \$4,203 on traveling expenses, \$6,248 on business, machines and \$5,063 on printing.

Expenses in 1937 were \$70,170, of which \$32,511 went for the commission's salaries and \$22,568 for staff salaries.

Since the report was made the commission staff has been curtailed.

Cornwell Award Given Londoner

LONDON (CP)—Stanley Ince not only knows he is going to die—he knows how he is going to die.

Ince, who is 53, suffers from creeping paralysis. It is incurable.

A prominent official in London's Boy Scout organization, Ince received on Armistice Day scouting's highest honor. It is the Cornwell Decoration for courage, capability and character.

The award goes to Ince because of the heroism with which he has faced his ailment.

The only other man ever to receive the Cornwell decoration was Sir Abe Bailey, the South African millionaire. Sir Abe has had both legs amputated.

Ince is warden of Roland House Scout Settlement. He is practically helpless physically. Daily he is driven to Roland House and dropped up at his desk.

"I thought I might as well chuck up the sponge when I caught an incurable paralyzing disease in barracks during the war," he said.

"Then he heard that Roland Phillips, a pioneer scout organizer in London's east end, had been killed in action and in his will had asked Ince to carry on his work.

"And I suddenly saw something worth living for," Ince declared.

That was more than 20 years ago—but he's still living for it.

Sentence Appealed

VANCOUVER (CP)—Arthur Lionel Guinness, physiotherapist, today was sentenced by Mr. Justice Denis Murphy to two years' imprisonment for supplying drugs with intention to procure a miscarriage.

The judge said he was being "as lenient as possible" under the section of the Criminal Code of Canada which set maximum penalties for the offence at life imprisonment.

Defence counsel filed an appeal.

How to Overcome Piles And Rectal Soreness

If you are annoyed with itching piles or rectal soreness, do not neglect the same or run the risk of an operation. Any itching, soreness or painful passage of stool, is nature's warning and proper treatment should be secured at once. For this purpose get from MacFarlane and Vancouver Drug Stores, or any druggist, a package of Hemoid and use as directed. This formula, which is used internally, quickly relieves the itching and soreness and acts in breaking the sore, tender spots. Hemoid is a physician's prescription and is highly recommended. It is easy to use and it seems the height of folly for anyone to risk an operation when a simple remedy, which is so pleasant to use may be had at such a reasonable cost.

Paris Demonstration Ended

PARIS (AP)—A group of about 2,000 persons, who police said were mostly Communists, today staged the first demonstration against Premier Daladier's decree laws.

Strong forces of police broke up the demonstration in Place d'Italie, in the heart of the Paris workers' district, without difficulty. Seven persons were arrested charged with obstructing traffic.

Both Socialists and Communists today assailed French "silence" on German anti-Semitism as deputies reported Premier Daladier to be planning to dissolve the Chamber of Deputies and rule without Parliament for a time.

They said the Premier was considering dissolution of the Chamber if it refused to ratify his "three-year-plan" for reviving French economy.

At the same time, the Leftist press demanded detailed information on negotiations for a French-German war renunciation agreement which the Premier told the Radical-Socialist executive committee yesterday were near completion.

Communist and Socialist newspapers bitterly attacked the Daladier government plan to get together with Germany at the height of a Nazi anti-Jewish campaign. The Communist party political bureau said the government's silence was noted with "shame and humiliation."

Both Socialists and Communists called for organized opposition to Daladier's decree laws, and the General Confederation of Labor, with an enrollment of 5,000,000 workers, called for a general strike if necessary to defeat the decrees.

President Albert Lebrun, Premier Daladier and Finance Minister Paul Reynaud scheduled new appeals to the country for backing in the program for raising taxes, lengthening working hours and speeding industry.

Uproar Over Student Paper

SASKATOON (CP)—Cleo Mowers, editor of the student newspaper, the *Sheaf*, has resigned his office following a motion passed by the University of Saskatchewan Students' Representative Council calling on him to do so.

The council's decision followed publication of the *Sheaf's* annual Remembrance Day issue. Students objected to editorial comment in the edition which referred to men who enlisted for Great War service as "dupes."

An editorial said "padres and chaplains blessed the boys" when they went over the top to kill. "No modern war can be waged without breaking every one of the 10 Commandments of Moses and two of Christ."

Another story on Remembrance Day said: "We would dedicate it to those who were unfortunate to go on living under the praise which is heaped upon their departed comrades and themselves as 'saviours of democracy.' To these men we offer our deepest sympathies, knowing that neither expensive memorials, slobbery praise, nor the stupefying effect of alcohol can wipe out the doubt from their minds, 'Did we die in vain?'"

JEWISH GUARDS FOR NAZIS IN NEW YORK

NEW YORK (CP)—A new attraction for distinguished Nazi visitors was provided here today by Mayor Fiorello LaGuardia, who in 1937 created an international incident by suggesting a chamber of horrors at the New York world fair with a likeness of Reichsfuehrer Hitler as the chief exhibit.

The mayor conferred with Police Commissioner Lewis Valentine yesterday and as a result an all-Jewish guard headed by Captain Max Finkelstein was detailed to guard the German consulate on Battery Place. Capt. Finkelstein is president of the Shomrim Society, Jewish organization of the police department.

Further, the all-Jewish guard in future will replace members of the criminal alien squad to serve as protectors of any prominent Nazi Germans who choose to visit New York.

Lieutenant Jacob Liker and Sergeant Isaac Goldstein, who also are Jewish, are Capt. Finkelstein's right and left bowlers.

Mayor LaGuardia, pressed for a statement, said Capt. Finkelstein's transfer was "purely routine." He added only it was "to protect personal property."

Australian Physical Culture Campaign

SYDNEY, Australia (CP-Reuters)—A national "keep-fit" campaign, affecting 1,000,000 adults and 600,000 children, is likely to be launched in Australia soon.

Unofficial surveys have shown that standards of physical fitness throughout Australia are surprisingly low, despite the sunshine and many beaches. Federal health authorities have called a conference of state officials at Canberra to discuss a national campaign.

New South Wales is to launch a physical education scheme next year and is importing a physical culture director from abroad.

Jean Miquelon Dies

CALGARY—Pioneer business man, Jean Romeo Miquelon, 70, who came to Calgary in 1886, died at his home here last night following a lengthy illness. He was born at St. Camille, Que.

Serious Operation On Queen Maud

LONDON (AP)—Queen Maud of Norway, sister of the late King George V of Great Britain, underwent an abdominal operation and there was anxiety because of her age. She will be 69 November 26.

"Although Her Majesty has come through the operation well," said a physicians' bulletin, "the next few days cannot be without some anxiety."

Her husband, King Haakon VII, hurried here upon receiving word the operation was to be performed.

The Queen was here on an annual visit, and became ill several days ago. The precise nature of the operation was not disclosed.

British M.P.'s to Debate Refugees

Discussion Set For Monday; Jews' Case First

LONDON (AP)—Prime Minister Chamberlain told the House of Commons today the matter of finding new homes for German Jewish refugees was being treated as one of urgency.

He said the problem had been taken up with governors of a number of British colonies, including the Governor of Tanganyika, former German East Africa, now a British mandate.

He added he hoped to make a statement on the whole question early next week.

The prime minister then agreed to a Commons debate next Monday on the treatment of racial minorities in Europe and the refugee problem.

He also announced a debate next Thursday on Palestine, the future of which the government plans to consider in an early conference with Jewish and Arab leaders.

KENNEDY PLAN

The British government was said by a high authority today to have agreed to a plan to remove thousands of Jews from Germany.

The ambassador was known to have laid his proposals before Mr. Chamberlain in a long conference Tuesday and the cabinet considered them at a meeting yesterday.

The "Kennedy plan" has been described authoritatively as calling for an effort to remove the majority of the 600,000 Jews now in Germany to North and South America and parts of the British, French and Netherlands empires.

In well-informed quarters it was emphasized Great Britain was working with the United States in trying to obtain "a final solution" of the problem of the German Jews.

Details of the proposals, which are to be presented also to France, The Netherlands, Latin American Republics and other states, are expected to be worked out at forthcoming meetings of the intergovernmental committee on refugees, formed last July at Evian-les-Bains.

It was estimated it would cost about \$600 a family to move Jews from Germany to new homes in other lands. The United States' part in the plan was understood to be mainly financial.

Mr. Kennedy conferred three times this morning with Malcolm MacDonald, Secretary for the Dominions and Colonies.

It was understood Britain would try to move Jewish refugees considered in immediate danger to British Guiana and other British colonies as soon as possible.

Some of the British dominions were understood to have offered to accept some refugees.

Australian Physical Culture Campaign

SYDNEY, Australia (CP-Reuters)—A national "keep-fit" campaign, affecting 1,000,000 adults and 600,000 children, is likely to be launched in Australia soon.

Unofficial surveys have shown that standards of physical fitness throughout Australia are surprisingly low, despite the sunshine and many beaches. Federal health authorities have called a conference of state officials at Canberra to discuss a national campaign.

New South Wales is to launch a physical education scheme next year and is importing a physical culture director from abroad.

Von Rath Called Martyr for Reich At Last Rites

Hitler at Ceremony At Duesseldorf for Nazi Slain in Paris

Ribbentrop Speaks

DUESSELDORF, Germany (AP)—Nazi leaders in the presence of Chancellor Hitler today paid tribute to Ernst von Rath, the slaying of whom in Paris touched off a sweeping anti-Jewish campaign, as the newest martyr of National Socialism.

A funeral service for the young embassy attaché was held in Duesseldorf's swastika-draped Rhineland hall, bestowing honors rarely accorded a civilian official.

The Reichsfuehrer entered the hall at noon, gave the Nazi salute while an orchestra played Beethoven's "Eroica," and then heard his aides eulogize Von Rath as the "eighth martyr" abroad.

Foreign Minister Joachim von Ribbentrop declared that "lies and calumnies, persecution and murder are the means employed by international Jewdom and other destructive powers which would like to block Germany's road into the future."

"Their last victim was Party Comrade von Rath."

"If now a new wave of hate strikes out at us in the world, if an attempt is made to desecrate the sacrifice of our deceased party comrade by new lies and calumnies, a storm of indignation rises throughout our nation."

"Its determination at all times to sacrifice everything for the Fuehrer and the Reich becomes all the firmer."

Von Rath was shot a week ago Monday by Herschel Grynszpan, 17-year-old Polish Jew, and died of his wounds Thursday.

NAMES EIGHT

State Secretary Ernst Bohle, head of the organization for German-Jewish co-operation, hailed von Rath as the "eighth martyr" for Germany among Germans abroad.

When he was shot, he said, were Wilhelm Gustloff, Nazi organizer in Switzerland, who was killed February 4, 1936, by a Yugoslav student, and six Germans killed in Barcelona. (A group of Germans were reported to have been executed by Barcelona leftists in August, 1936.)

"Germans everywhere abroad are the marks for international scoundrels who see they no longer can do harm to Germans within the Reich," said Bohle.

As the services closed with the national anthem, Hitler walked over to Von Rath's parents and extended his condolences.

He then stepped before the bier, saluted once more and left the hall.

Trade Pacts May Influence Reich

WASHINGTON (CP)—With relations between the United States and Germany strained over Nazi violence against the Jews, the trade agreement with the United Kingdom signed this afternoon appears destined to bring the United States and Great Britain closer together and to push Germany still farther away.

Some officials here believed the treaty might act as a restraining force on Germany, perhaps inducing Chancellor Hitler not only to quell anti-Semitic outbreaks but also to seek a similar trade agreement with the United States.

Embraced in the new agreements with Great Britain and Canada are about 1,000 articles of export and import. Each treaty, in printed form, is the equivalent of a good-sized book. Together they weigh a pound and a half.

Products from all parts of the globe are involved in the agreements through inclusion of the British colonies, ranging from Zanzibar and Sierra Leone in Africa to the Malay States in the Far East, the Fiji Islands in the Pacific, the West Indies, and British Guiana in South America.

The importance of the trade with the colonies is indicated by the 1937 figures showing that the United States bought \$322,560,000 worth of goods from them and sold them \$76,897,000.

Five Die in Fire

ST. JOHN'S Nfld. (CP)—Five children of William Strickland of Lamaline, at the tip of Burin Peninsula on Newfoundland's south coast, were burned to death in a fire which destroyed their home today. The few details received here said Strickland was the only survivor of the blaze. He is believed to be a widower.

Questions on Pressure On Papers in Britain

LONDON (CP-Havas)—Geoffrey Mander, Liberal, today announced his intention of asking Prime Minister Chamberlain in the House of Commons next Tuesday to state to what extent members of the government have recently suggested to newspaper owners the attitude they should take on foreign affairs.

He will also ask why representations were recently made by the government to the United States embassy for the withdrawal from a newsreel of items contributed by Wickham Steed, former editor of the Times, London, and A. J. Cummings of the London News-Chronicle.

People Said to Lose By Delay

Attorney-General Tells Appeal Court Gasoline Reduction Needed

VANCOUVER (CP)—Attorney-General Gordon Wismer's claim that there is no basis in fact or law which Mr. Justice A. M. Manson could grant an injunction restraining the provincial fuel board from carrying out one of its orders reducing the retail price of gasoline, was placed before the Court of Appeal yesterday afternoon.

The Attorney-General was beginning presentation of the Crown's appeal from the Supreme Court judge's injunction, granted October 24 at the request of seven gasoline manufacturing companies and two gasoline retailers.

"While the injunction is in force the people of British Columbia are losing between \$4,000 and \$5,000 a day in increased gasoline costs," Mr. Wismer told the three presiding judges, Chief Justice Martin and Justices McQuarrie and Sloan.

"This is a matter of greatest importance. At the same time we wish to have cleared up the point of law on which injunctions are granted against public bodies whose actions are based on provincial statutes."

The order reducing the price of gasoline was passed last month by the British Columbia Coal and Petroleum Products Control Board and approved by the provincial cabinet.

It would have reduced the price in some parts of the province as much as six cents.

Mr. Justice Manson had ordered an early trial to determine validity of the Provincial Coal and Petroleum Control Board Act under which the fuel board was appointed, the heavy loss to the public had been a major reason for the government's appeal from the injunction.

Much of the argument Mr. Wismer used was a repetition of the government's case before Mr. Justice Manson at the end of last month when the judge ordered continuation of the injunction pending trial of the validity question.

OBJECTS TO DELAY

The Attorney-General contended the oil companies should have taken action against the board when it was first constituted instead of waiting until the price reducing order was passed.

"But what reason did they have for taking action until the order was issued?" Mr. Justice Sloan interjected.

"There had been previous orders of different kinds," Mr. Wismer said. "They could have started action to test validity of the act."

He claimed there was no material before Mr. Justice Manson to show irreparable damage to any of the plaintiffs. The order set the retail price of gasoline, and hence did not affect the seven wholesalers. Affidavits filed by the two retailers showed they would lose only \$75 a month.

"My learned friend (Senator J. W. de B. Farris, counsel for the oil concerns) made out no case for an injunction before Mr. Justice Manson," the Attorney-General said.

Seattle Labor for Boycott of Reich

SEATTLE (AP)—A Central Labor Council resolution passed here last night urges severance of all diplomatic relations with Germany and a boycott of all German-made goods.

The resolution, adopted unanimously, urges William Green, head of the American Federation of Labor, to take up with President Roosevelt Nazi persecution of Jews. Copies were sent the German consul in Seattle and the German embassy in Washington, D.C., leaders said.

Edmonton (CP)—Counting of ballots cast by Edmonton district coal miners on acceptance of wage increases ranging from 5 to 8 per cent will take place tomorrow. It was announced here today by officials of United Mine Workers of America, negotiators of the increases. The votes were cast yesterday.

Two By-elections Today in Britain

Doncaster and Bridgewater Follow Government Success in Walsall

LONDON (CP)—The "little general election" in the United Kingdom continued today with voting in Doncaster and Bridgewater constituencies following closely the government's victory yesterday in a by-election in Walsall.

Sir George Schuster, National Liberal candidate, called his victory in Walsall over George Jeger, mayor of Shoreditch and Labor candidate, an endorsement of Prime Minister Chamberlain.

The electorate recognized Mr. Chamberlain saved Great Britain from war, he said, and that "his government afforded the best hope for better employment and a greater extension of social services."

The defeated candidate said the people were so "bewildered by recent events they have not yet come to an understanding of the effects of Munich on the nation's future."

Sir George received 28,720 votes to 21,562 for Mr. Jeger.

As in two previous by-elections since the September Munich agreement accepted the dismemberment of Czechoslovakia, the contest was fought squarely on the government's foreign policy.

In this case the troubles of Germany's Jews were used by the opposition to support its claims that the government had failed to find a basis for real appeasement in Europe.

In the two previous by-elections the government retained one seat and Labor gained the other.

Candidates in Doncaster today were Alexander Monteith, National Liberal, and John Morgan Labor. In Bridgewater, Patrick Heathcoat-Amory ran as Conservative against Vernon Bartlett Independent Progressive, with Labor backing. Mr. Bartlett is well known as a newspaperman and commentator on international affairs.

THURSDAY, NOVEMBER 17, 1938

About the Press

NEXT TUESDAY IN THE BRITISH House of Commons Prime Minister Chamberlain is to be asked to what extent members of the government have recently suggested to newspaper owners the attitude they should take on foreign affairs. The questioner is Mr. Geoffrey LeM. Mander, Liberal member for Wolverhampton, who will also inquire why representations were recently made by the government to the United States embassy for the withdrawal from a newsreel of items contributed by Mr. Wickham Steed, former editor of The Times (London), and Mr. A. J. Cummins, diplomatic correspondent of the London News-Chronicle.

It will be recalled that during the last days of September, the London Daily Mirror, with a circulation of more than 2,000,000, repeatedly asked for all the facts and details of the negotiations then proceeding between Mr. Chamberlain and Der Reichsfuehrer. Its editor is reported to have been called up by Lord Halifax and, to put it briefly, told to "adjust" his editorial observations. There followed shortly afterward, on October 11, a full-page "story" about "The Man Who Made All England Sit Up," meaning the editor of the Mirror. It took its readers from February's events down to Munich, with the Mirror had said over its editor's ("W.M.") signature from time to time. One typical "W.M."ism, which appeared in its usual column the day before, October 10, was: "Our recent diplomacy has been so weak that it has reached a condition of fainting into a peaceful swoon before blackmailers." This, of course, was after the Foreign Office complaint; but the Mirror incident no doubt is in the mind of Mr. Mander as he contemplates question time next Tuesday. The Mirror, incidentally, is still one of the largest newspapers in the world, with a circulation of over 2,000,000, and until recent years its largest shareholder was Lord Rothesmere.

A Third Term?

NOW THAT THE "OFF-YEAR" ELECTIONS in the United States have passed into history, with the Republican Party naturally feeling quite satisfied with the showing it made at the polls, speculation already is rife as to what effect, if any, last week's Congressional results will have on the decision of President Roosevelt to establish a precedent and announce his decision to run for a third term.

The opinion in some quarters seems to be that the renomination of Mr. Roosevelt is more likely than ever in consequence of the poor showing his party made in the recent tests. Following the President's failure against the nine "purge" Senators, for example, the election demonstrates to both friends and foes of the New Deal that Mr. Roosevelt cannot transmit his strength to others—that he is only overwhelming when he is running himself. He has twice proved that when he runs he pulls his tickets through with him, and as a consequence the reverses suffered this year may lessen third-term prejudice in the minds of many practical Democrats who thus far have been disposed to favor other candidacies.

It would, of course, require a super-expert statistician to devise any method of calculation by which the election returns can be made to forecast the choice of a Republican President in 1940. States carried by the Democrats last Tuesday would give a heavy electoral vote margin to a Democratic Presidential candidate. New York, Illinois, California, and the Solid South with border states alone would do it. Counting only states where the Democrats won undivided victories for statewide offices, the Democrats would have rolled up 302 electoral votes, against 266 necessary to elect. It is also significant that not since 1888 has any party won a Presidential election without carrying the House of Representatives two years previously.

While these are the immediate considerations to be borne in mind as political eyes are cast in the direction of 1940, not the least among other considerations which may at no distant date have to be brought within calculation is the administration's policy toward the troubles of Continental Europe and the Orient. Mr. Roosevelt's outspoken views on the defence of this hemisphere, his willingness to assist persecuted Jewry—not forgetting the effect of the two trade pacts signed today in Washington—must have some bearing on the events that will lead up to the presidential campaign of 1940.

No Change

VOTERS IN THE WALSALL BOROUGH of Staffordshire went to the polls yesterday and retained the seat for the supporters of the Chamberlain government in the British House of Commons. Sir George Schuster, running as a National Liberal, polled 28,720 votes, compared with the 21,562 votes rolled up by Mr. George Jeger, running as a Laborite. As in the case of Dartford, where the opposition forces gained a seat in a striking overturn last week, the foreign policy of the administration was the exclusive issue.

In the 11 elections held in this "Black Country" constituency since 1900, straight

Liberals have won five, straight Conservatives three, Labor only one, on a heavy minority vote in 1929 when the Ramsay MacDonald forces elected 288 members, or sufficient to enable them to carry on the government of the country with the assistance of a comparatively small representation of the Liberal party. In 1935, Mr. J. A. Leckie, who won the seat in 1931 as a Liberal with a majority over his Laborite opponent of 6,555, carried the day again as a National Liberal, with a plurality over his Labor and Independent opponents of no less than 7,489. It was Mr. Leckie's death which caused the vacancy and yesterday's contest.

The election of Sir George Schuster as a Liberal supporting the government is by no means surprising. He is a banker, associated with numerous British and international financial concerns with ramified interests, while his opponent is the sitting Mayor of a London borough (Shoreditch) which is represented in the House of Commons by Mr. E. Thurtle, journalist and former soldier, who trounced a National Liberal in that traditionally Socialist stronghold in 1935 with a majority of 7,000.

What effect the arguments advanced by the Mayor of a London borough had on the constituents of a midland industrial constituency like Walsall is reflected by the result. Walsall, of course, is in the thick of the "Black Country"—and is enjoying considerable prosperity from an accelerated demand for its iron and other heavy-industry products essential to the government's rearmament program. Sir George's victory is none the less a definite intimation that his supporters are satisfied with their own economic lot under the present dispensation at Westminster.

Canada's Gain In Aviation

COMMERCIAL AVIATION IN CANADA during 1937 showed a remarkable increase over previous years. During the year, 10,627,000 miles were flown compared with 7,804,000 miles during 1936 and 7,522,000 miles in 1935. In these flights, 2,004,000 ton miles were carried compared with 1,165,000 ton miles in 1936.

Carrying freight, passengers and mail to the mining fields and to the remote parts of the country was the principal activity of the commercial aircraft in Canada during 1937. In recent years, a number of new mining fields have been opened in Quebec, Ontario, and in the northwestern territories. Ordinarily these territories are inaccessible, and freight and passengers would have to be carried by rail or by pack trail. Through the introduction of commercial aviation, freight and passengers can reach these outlying districts within a few hours of leaving the large cities. The fact that machinery and equipment can be brought to the mining fields within a reasonable time, and at reasonable cost, has contributed to the increase in mining activity in Canada.

Commercial aviation has also been used with great success in surveying forests as well as in fire fighting. Also, airplanes are used extensively for topographical survey work. Yet, in spite of its rapid progress during the past three years, commercial aviation is still in its infancy. In view of the tremendous size of the Dominion, it is generally believed that "business flying" has a great future and that it will be used much more extensively from now on than in recent years.

The Japanese ceremonial in which the horses killed in the war in China are honored by Japanese troops looks like so much horse play.

"Last Dollar quits famous ship line,"—headline. In most instances departure of the last dollar is too frequent to be worthy of mention.

Stalin's statement that the lives of Russian aviators are too precious to lose in stunt flying sounds like sure-fire recruiting for the air corps.

Hollywood actors appearing in western thrillers are compelled to punch a time clock under a new studio rule. Does that not make them cowed punchers?

ST. LAWRENCE PROJECT

From Toronto Star

The St. Lawrence deep waterway, as a navigation project, pure and simple, could be completed for \$200,000,000. On that basis little opposition would be offered to it. But because the best way to build it would be to flood out the rapids and develop 2,000,000 horsepower of electricity it is furiously opposed. The absurdity of this is seen when it is realized that the power on the international section is as good as an inexhaustible gold mine producing ultimately \$50,000,000 of wealth annually. It is such a bonanza that private interests would jump at the chance to make a gift to the public of the waterway in return for the power rights. The public is indisposed to create a vast private power monopoly and contemplates producing the power under public auspices. That explains why private power interests on both sides of the line have combined to oppose the deep waterway. An arrangement easily could be made for Ontario to take power from the St. Lawrence and pay for it only as the power is needed. The Hydro estimates that it will be short of power before new St. Lawrence power could be made available.

The principal economic argument employed against the project is that Canada has a government debt of \$7,000,000,000. This burden will not be lifted for many a year and who will say that all progress must stop in the meantime. Three-quarters of Canada's share of the work on the deep waterway is done and paid for. The United States is asking that she be authorized to do her share at a cost of \$245,000,000, which would give Canada value for the \$130,000,000 spent on the New Welland canal. All that Canada is being asked to do is to provide a deep channel in the all-Canadian section at a cost of \$38,000,000.

Across the Bay

By BRUCE HUTCHISON

AMBUSH

MR. MAITLAND executed his first major strategic manoeuvre in the House yesterday. It was one of those surprise attacks when you hurl yourself at the enemy's superior artillery and ask to be mowed down like a hero, Mr. Maitland and his little army were mowed down, as they desired and went home satisfied that the manoeuvre was a complete success.

Probably this first serious engagement of the session will not live long in history and has no lasting importance to one party or the other. But for the moment, as these things are judged here from day to day and with an exaggeration of their effect, the Conservatives are entitled to feel that they put the government in an embarrassing and probably a false position before the public.

Also, temporarily at least, they wrested the actual leadership of the opposition from the C.C.F., and that rightly means a lot to the Conservatives.

The manoeuvre was well planned and neatly executed along lines clearly mapped out by Mr. Maitland in advance. As the House opened, Capt. Macintosh, not long ago a bashful boy in this House, now a cool debater, rose to protest that Mr. Speaker had refused to permit him to move a motion urging the end of Oriental immigration into Canada.

This sounded mild enough, but it was the stuff that superior political ammunition is made of. Premier Pattullo instantly perceived what was up after long experiences with such ambushes and guerilla warfare; saw that the Opposition was trying to place the government in the position of supporting the Oriental. He resolved to yield not an inch, to let the opposition make what capital it could.

Capt. Macintosh and Mr. Maitland pressed the government hard, and did not spare Mr. Speaker Whittaker either for ruling out the Oriental resolution. It is a grave thing to question a Speaker, graver still to reflect on his rulings. But the Conservatives, and later the Socialists, did not hesitate to suggest that they hadn't been getting a square deal with their resolutions and their questions to the government—which Mr. Speaker, calm and unruffled, denied.

AN ORIENTAL QUESTION

THE THING TURNED, strangely enough, on a proper definition of the word "Oriental." Mr. Speaker ruled that the Conservatives could not use that word because it was a friendly power—Japan. To support this view, Mr. Speaker Whittaker quoted a ruling by former Speaker Perry. But Mr. Perry at once sided with the Conservatives, and suggested as a way out that Mr. Speaker Whittaker "graciously permit" the Macintosh resolution to go ahead.

Mr. Speaker Whittaker wouldn't, and by this time the fighting had got into the open. The Premier, refusing to manoeuvre at all, but meeting the charge head-on, told Mr. Maitland plainly that he was just trying to make political capital out of the Oriental question.

This, of course, was true, but a legitimate part of the democratic process. Mr. Maitland undoubtedly is sincere in opposing Oriental immigration, but he does not object if his opposition increases his prestige among the voters. And, naturally, what he wanted most of all was to see the Pattullo Government oppose him on this popular and delicate issue.

No one knew better than Mr. Pattullo what Mr. Maitland wanted and some men in his place would have refused to give it to him. But the Premier seemed to think that the large international and Empire questions involved were too large to tamper with. So he appealed to the House not to embarrass a Canadian government which was dealing with Oriental immigration and—this being a highly significant piece of new information—would deal with it further.

LARGER ISSUE

FROM THE PREMIER'S appeal it was clear that no mere question of rules or order was before the House. It was now a question of higher national and Empire policy. There are many Liberal members who must have hated to vote against the Macintosh resolution, to appear even indirectly to favor the Oriental, because both parties are unanimously opposed to Oriental immigration. But after the Premier's appeal the Liberals stood firm—or almost.

Dr. Gillis, often a rebel in the past, voted with the opposition on a formal division, and Mr. Perry left the House rather than vote with it, as he would have had to do, after his speech. Apart from that, the Liberal ranks were unbroken—not in favor of Oriental immigration, but only on the question whether Capt. Macintosh was out of order.

This skirmish satisfied the Conservatives as a beginning, but the matter is not ended. The Conservatives, satisfied with their ambush, plan next a major attack. They will rewrite their resolution, cut out the word "Oriental" and, if it is then in order, will force the House to vote not on a mere question of order, but on the real question of Oriental immigration. If Mr. Pattullo adopts the same stand again—fearing to embarrass Canada and the Empire—that vote can be exceedingly interesting.

After the opening excitement, the rest of the day dragged along rather slowly. Glen Braden, one of the promising younger Liberals, led off with an excellent speech about his Peace River country, of which he seems to know every foot. If Peace River could have heard him it would have seen that it had an untiring booster for its representative. Next to the Peace River, Mr. Braden

B.C. School Books

By ELMORE PHILPOTT

IN MOST RESPECTS the schools of British Columbia seem to me to be much more progressive than those in central and eastern Canada. But in another respect the system here is decidedly behind most of the provinces of Canada. That is in regard to the method by which the individual pupils have to obtain their books. I know of no other part of Canada or the United States where families are forced to spend so much money out of their own pockets to supply their children with the textbooks demanded by the present curriculum. Indeed, the very basis of the public school system in North America might well be considered the free supply of books to all public school scholars. Why British Columbia should lag so far behind in this particular matter, when the province is relatively so well advanced in social consciousness is a mystery to me.

Another matter which is likely to dumbfound middle-aged folk who are renewing their acquaintance with the educational system is the astonishing number of books now used. There was a day, when pupils were well educated, too, when the three R's—reading, writing and arithmetic—were well mastered on about a book apiece. Indeed, in the pioneer days the teachers themselves thought themselves well equipped with one "good reader" like the famous McGuffey's. The blackboard, the teacher's head and a good stout hickory was all the equipment required for instruction in the remainder of the curriculum.

No one would suggest going back to the pioneer methods. But the layman might be pardoned for wondering whether the trend had not swung too far the other way.

Personally, I never could see any excuse whatever for the lack of co-operation between the provinces, whereby failure to standardize on the same textbooks runs the purchase cost up out of all reason. Nor could I ever understand why the textbooks had to be repeatedly changed from year to year. This was bad enough in Ontario, where the authorities supply all books and charge the same in the tax rates. It is a more direct burden where the parents are forced to buy the books themselves.

IN THE EAST

CIVIL SERVANTS used to hint to me in private that there was what you might call a school book "racket." Somebody with "pull" wanted the contract to supply new books. Or some professor with the ear of the department was sure that he could write a better book than that in use. Incidentally, I don't blame anyone for imagining that he could write better books than those in use. I often feel that way myself when I look over a textbook. But I do blame the departments for falling for the argument.

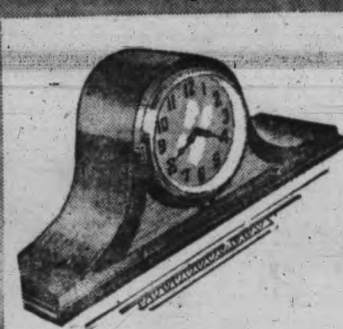

I know of no evidence to suggest any such condition in British Columbia, but I do believe that the government should take one step at least toward the goal so emphatically demanded at the recent Liberal convention. The province may not be able financially to assume the full cost of all education as demanded, but it surely should supply all books free.

loves the government and he praised both equally.

Tom King made one of his familiar homely and likable speeches about things in general. He advocated immigration, sterilization and tuberculosis segregation, with a lot of supporting evidence.

Mr. Winch, the elder, contributed his usual detailed and meaty address, covering the scientific definition of Communism, the problems of insanity, the investments of insurance companies and the making of juices from our surplus B.C. fruit.

This is all supposed to be the budget debate. But where, oh, where is the budget? Mr. Hart, doubtless, knows but isn't telling. No finance minister could ask for more than to have his budget forgotten, with its feathers hardly ruffled so far.

Parallel Thoughts

And he said unto them, Go ye into all the world, and preach the gospel to every creature.—Mark 16:15.

Did you ever notice that while the gospel sets before us a higher and more blessed heaven than any other religion, its hell is also deeper and darker than any other?—Warren.

THE DAVID MURDOCK CASE

To the Editor:—May I through your columns explain my position relative to the case of David Murdock, to which I referred on the floor of the Legislature.

After three trials on the charge of murder he was adjudged by the jury as insane, and committed to Colquitz Mental Hospital, where he has been an inmate for about six years. His wife applied to the Supreme Court for a legal inquiry to inquire into his mental condition, claiming that for two years he had been sane. His application was opposed by the Attorney-General's Department on the ground that "he was tried for the murder of one Jean Nolan in 1932 and was acquitted on the ground of insanity." From a newspaper report it is alleged that Mr. Justice D. A. McDonald, in denying the application, said: "I, for one, will not let a man out of the asylum under these circumstances."

Section 12 of the B.C. Lunacy Act states:

"The inquiry shall be confined to the question whether or not the alleged lunatic is at the time of the inquiry of unsound mind and incapable of managing himself or his affairs, and no evidence as to anything done or said by him, or as to his demeanour or state of mind at any time being more than two years before the time of the inquiry, shall be receivable in proof of insanity, or on the trial of any traverse of an inquiry unless the judge in lunacy otherwise directs."

This is word for word similar to the English law. The Report of the Royal Commission on the Penal System of Canada, page 156, states:

"Your commissioners are of the opinion that there is no class of person who can be termed 'criminally insane.' Those who have committed or are likely to commit violent or unlawful acts by reason of their insanity, are essentially a medical problem and not a legal one. They are in no sense criminals because their violent tendencies are due to mental disease."

Personally I am not concerned with the question of the legal factors involved in the criminal charges—these are a matter for a legal tribunal—neither am I concerned with defining the mental state of the person concerned, but I am very much concerned with assuring to all persons whether allegedly criminal

Deja Dresses

For Afternoon
Wear

Not only are these new arrivals rich in the superb style which characterizes all Deja models—but they interpret to perfection the classically draped yoke and shoulders... the corseted Victorian waistline... and the new sleeve and neckline effects. Their trimmings, too, are different. Deft touches of soft shirring, exquisite ornaments, heavy golden chains and here and there a glimpse of shining sequins and gold kid... enhance their beauty and add an air of fashion-right extravagance.

Come in and see them in their array of beautiful shades. Sizes 12 to 44.

Protest Lowering Women Teachers' Salaries

'Discrimination' at High School Rouses Clubwomen

Protest against the "unjust discrimination in salaries against women teachers in the Victoria High School" was expressed in a strong resolution passed at the meeting of the University Women's Club last night. A letter of protest on the subject will also be sent to the Victoria School Board, and the matter will be brought to the attention of the Local Council of Women.

The meeting was held at the home of Mrs. H. E. Young, Oliver Street. Dr. Olga Jardine moved the resolution, which was seconded by Dr. Henrietta Anderson. Several members spoke to the resolution, pointing out that women teachers with the same qualifications as the men had received drastic reductions in pay, and were receiving much smaller salaries. The members urged the upholding of the principle of equal pay for equal work.

DESCRIPTS CZECHOSLOVAKIA
Dr. Alton Peebles, who was introduced by Mrs. Hazel Hodson, program convenor, gave an interesting talk on his impressions of Czechoslovakia, which he visited this summer in the course of a European trip. Describing it as "an island of democracy in a sea of dictatorship," he declared that the minority problem was an excuse and not a reason for Hitler's aggression and that, as long ago as May when he was there, there was a sense of impending trouble.

He spoke in praise of the architectural beauty of Prague, and the courtesy of the people whom he met, and touched briefly upon the history and tradition of the country.

Mrs. H. L. Smith was in the chair and announced that the club's 30th anniversary would be celebrated on December 9 at a dinner at the Empress Hotel at 7. After the meeting, refreshments were served, the dining-room table being arranged with a lace cloth and decorated with bronze chrysanthemums, and presided over by Mrs. H. L. Smith. The meeting was well attended and a number of visitors welcomed.

Mrs. J. O. Cameron Talks To Music Teachers

A large gathering of teachers enjoyed an interesting address given by Mrs. J. O. Cameron at the luncheon arranged by the Victoria Music Teachers' Association at the Y.W.C.A. yesterday. Mr. Reginald Cox presided.

The speaker gave a comprehensive account of her travels through the British Isles and on the Continent, describing the many points of interest. The season of musical activities had not begun when Mrs. Cameron was there, but she had the pleasure of hearing several good concerts and of being very much thrilled with the orchestra at the "after work" concert that she heard in Rome.

Mrs. Cameron said she was also much pleased by the amount of good music known to the 'man in the street,' as one always heard the air from some classic whistled by workmen or errand boys as they went about their business.

Miss Gladys Hewlings, seconded by Mr. Oliver Stout, expressed the hearty appreciation of the members. The luncheon was held following the usual business meeting at which the members were reminded of the Hammond organ recital arranged through the kindness of Fletcher Cox Bros. for the evening of November 22 at 8.15.

METROPOLITAN Y.P.S.

Rev. A. E. Whitehouse addressed the Metropolitan Young People's Society on the early days of the west.

L. Cannon, president, moved a vote of thanks to the speaker. All members were reminded to collect literature for the West Coast Mission boat.

Josephine Cook and Queenie Waters were appointed to attend the Victoria and District Youth Council's mock parliament at the Y.M.C.A. L. Cannon and Hope Large will be delegates to the Lower Island United Church Young People's Council meeting on November 30.

SOCIAL and PERSONAL

Mrs. J. C. Stewart, wife of Brigadier J. C. Stewart, entertained at a luncheon party at the Union Club today, in compliment to Mrs. V. G. Brodeur and Mrs. J. E. W. Oland. The guests included Mrs. E. W. Hamber, Mrs. J. D. Hunter, Mrs. C. T. Beard, Mrs. Levy of Jamaica, Mrs. R. Wainman Wood, Mrs. H. R. Tingley, Mrs. Reed Paige Clark, Mrs. J. Nelson Gibson, Mrs. J. D. Sutherland Brown, Mrs. E. Reeves Cawley, Mrs. Hermann Robertson, Princess Chikhmatoff, Mrs. G. M. Weir, Mrs. James Murray, and Mrs. Gourlay Colquhoun.

Mrs. W. T. Greensides of Vancouver, visiting in Victoria, is the guest of Mr. and Mrs. M. R. Pearce, Beechwood Avenue.

Mrs. C. H. Mercer, Haultain Street, who went to Fort Alberni to attend the wedding of her son, Mr. William Herbert Mercer and Miss Norma Ernestine Nelson on Monday, has returned to Victoria.

Mrs. Royden Morris, who was among the out-of-town guests at the McIntosh-Cumming wedding, and has been visiting her parents, Mr. and Mrs. C. H. McFarlane, in Vancouver has returned to her home on Oliver Street.

Captain G. C. Jones, who has been transferred from Ottawa to the Esquimalt Naval Barracks, is expected in Victoria at the beginning of the week to join Mrs. Jones who arrived here a couple of months ago and is resident on Rockland Avenue.

Quadra P.T.A. Bazaar Well Patronized

This is the season of Christmas bazaars and one of the most successful of those held yesterday was that at Quadra Street School under the auspices of the Parent-Teacher Association, which netted the handsome sum of \$140.40.

School trustee P. E. George, president of the P.T.A., introduced School Trustee Mrs. A. S. Christie, who opened the bazaar with a happy little speech. She was presented with a bouquet of chrysanthemums in the school colors of mauve and white by little Margaret Stevenson, who also presented a fern and a corsage bouquet to Mrs. W. P. Jeune, the general convenor.

Among the visitors were: Mrs. Andrew McGavin and Trustees W. E. Staneland, F. G. Mulliner and R. H. Green.

In the evening a 500 game was enjoyed, the prize winners being: First, Mrs. F. Heanski and Mr. Heanski; second, Mrs. Entwistle, Mr. Herburger; consolation, Mrs. Howell, Mrs. Campbell; ten-bid, Mrs. L. Schmelz and Mrs. Campbell. A popular diversion in the afternoon was tea-cup reading by Mrs. McCague.

Dean Spencer Elliott will be the speaker at the annual thank-offering meeting of the W.M. Society of St. Andrew's Presbyterian Church, to be held Monday afternoon, November 21, at 3 in the lecture room of the church.

Bridge Tea Aids Seamen's Home

Delightful Affair Held Yesterday At Empress Hotel

Impetus to the work done among visiting sailors by the Connaught Seamen's Institute was given through the medium of the successful bridge tea held by the ladies' committee in the Empress Hotel yesterday afternoon. The affair was held in the lower lounge, which was attractively decorated with bronze and white chrysanthemums.

Mrs. Vernon Thomson, the president, welcomed the guests, Mrs. Albert Griffiths convened the bridge, and Mrs. R. W. McMurray supervised the tea arrangements assisted by Mrs. David Doig, Mrs. H. Lloyd-Young, treasurer, was at the receipt of customs.

Col. A. W. R. Wilby announced the prize winners, who were Mrs. Gloy, first; Miss M. Freeman, second; Mrs. J. H. Burns, third; Mrs. B. Grant, fourth, and Mrs. H. Harman, fifth.

Tea was served from a long table covered with a green satin damask cloth and centred with a silver bowl of chrysanthemums with smaller bowls at either end. Presiding at the tea and coffee urns were Mrs. J. V. Church, Mrs. R. Shanks, Mrs. J. W. Cashmore and Mrs. C. D. Neroutos. In addition to the tables in play at the hotel, a number of hostesses entertained at their own homes in aid of the funds, these including Mrs. W. B. Leach, Uplands; Mrs. Wm. Ellis, Beach Drive; Mrs. A. N. Mouat, Uplands; Mrs. E. W. Boak, Joan Crescent; Mrs. Archibald E. Wilson, Uplands, and Mrs. J. Quinn, who entertained with three tables at her home on Esquimalt Road.

Jewish Thanks Move Queen Mary

LONDON (CP) — Queen Mary was deeply moved as she listened to an address of thanks delivered to her by the Jewish subjects of the British Empire.

Queen Mary had just performed the opening ceremony of the new Stepping Jewish Girls' Club and Settlement. The club cost £17,000 (£81,000) to build.

Mrs. de Rothschild recalled a remark made by the late King George V in Westminster Hall at his Silver Jubilee. "Under this flag of freedom so many millions eat their daily bread with none to make them afraid." "That," added Mrs. de Rothschild, "was a simple statement of the truth, but it stirred us very deeply and brought to the surface from their innermost consciousness the profound loyalty, devotion and thankfulness which the Jewish subjects felt towards the Crown."

Lady Spielman presented Queen Mary with a set of antique pointers used by the rabbi in the synagogue when reading the law.

Christmas Bazaar at South Park School

The annual Christmas bazaar sponsored by the James Bay Parent-Teacher Association will be held in the South Park School auditorium on Friday afternoon, November 25, at 3. Mrs. Day, president, is general convenor.

Stalls displaying home cooking, candy, novelties, sewing, etc., will be set up in the auditorium for the occasion. Afternoon tea will be served and a well-balanced program by the pupils of South Park, Beacon Hill and Kingston Street schools will round out the afternoon.

In the evening cards will be played and articles not sold during the afternoon will be auctioned off.

An enjoyable afternoon of bridge was spent on Tuesday at the Brentwood Institute Hall, Mrs. G. Corry and Mrs. A. Francis being the hostesses. Five tables were in play, the winners being Mrs. H. Andrew, Mrs. R. Carrier and Mrs. W. Watt. Refreshments were served by the hostesses. A 500 card party will be held in the hall on Wednesday evening, November 23. Good prizes will be given. The date set for the annual bazaar and turkey card party is Saturday, December 3, the bazaar to be opened at 3.

The monthly meeting of the Royal Bridge Junior Chapter, I.O.D.E., will be held at headquarters on Saturday at 2.30.

Lodge Bazaar Is Big Success

Mrs. R. W. Mayhew opened the successful bazaar arranged by the Daughters of St. George, Lodge No. 83, and held yesterday afternoon in the S.O.E. Hall. Mrs. J. Osborne, the president, welcomed the guests and introduced Mrs. Mayhew, who, in a graceful little address complimented the order on its aims and objects and declared the bazaar open, wishing the members every success in their undertakings. She was presented with a beautiful bouquet by the president.

Tea was served at 3 p.m., under the direction of Mrs. E. G. Smith, who presided at the head table, which was centred with a silver basket of red and white carnations, with red tapers in silver sconces. Assisting her were Mesdames K. Gaiger, E. Haut, J. Brien, M. McLean, J. Lomas and E. Lomas. Teacup reading was an interesting feature in charge of Mrs. Mallows and Mrs. Milne.

The stalls were prettily decorated with red and white streamers, with large poinsettias and trailing ivy, under the direction of Mrs. A. Harris and her committee. Mrs. A. Gurney was general convener and the following members were in charge of various stalls: Fancywork, Mrs. A. Harris, Mrs. H. Penketh, Mrs. Murray; aprons, Mrs. B. Harper, Mrs. Longley; novelties, Mrs. N. Petrie, Mrs. M. Bentham; candy, Mrs. M. Haines, Mrs. F. Sims; home cooking, Mrs. A. Pitney, Mrs. A. Hooper; chicken dinner, Mrs. E. Skellend, Mrs. M. Wright; contest, Miss E. Reede, Mrs. L. Morgan; house-houses, Mrs. A. Bell; Mrs. E. Orchin.

In the evening cards and dancing were greatly enjoyed. Mrs. K. Gaiger, Mrs. R. Nunn and Mrs. M. Muckle being responsible for the evening entertainment.

The prizewinners at 500 were: First, Mrs. Pitney and Mrs. Robinson; second, Mrs. Prior and Mr. C. Dodson; consolation, Mrs. Mountain and Mrs. McClure.

Imperial Veterans To Hold Ball

The Imperial Veterans will hold their annual ball at the Empress Hotel on Friday evening, Nov. 18. The ball will be in aid of the Imperial Veterans' fund. The ball will be held at the Empress Hotel on Friday evening, Nov. 18. The ball will be in aid of the Imperial Veterans' fund. The ball will be held at the Empress Hotel on Friday evening, Nov. 18. The ball will be in aid of the Imperial Veterans' fund.

The proceeds of the ball will be used to provide funds in order to help some of the less fortunate veterans, some of whom receive very small pensions and others no pensions whatsoever. Major E. C. McDonald, Messrs. C. Freagar, C. Seed and Murray Allen comprise the committee in charge.

Tickets may be obtained from the secretary at headquarters, 717 Courtney Street; Melville Cigar Store and Morris Cigar Store, on Government Street; United Cigar Store and Hall's Cigar Store, Douglas Street; Belcher's Store, Yates Street, and James Little's Store, Quadra Street.

GARDEN CITY

Mrs. R. A. Scott was hostess on Wednesday afternoon at her home on Jasmine Avenue to the Garden City United Women's Association. Mrs. A. P. Fryatt presided and Mrs. W. P. Brown led during the devotional period. Mrs. W. Armstrong, secretary, presented encouraging reports regarding the recent bazaar and other association activities. The next meeting will be held at the parsonage, Glyn Road, on December 14, when the dime calendars will be brought in and election of officers will take place for the ensuing year.

To Relieve BABY'S HEAD COLD

DO THIS: Massage his throat, chest, and back with Vicks VapoRub and tuck him into bed. Next, put a spoonful of VapoRub in a bowl of boiling water; place a newspaper or sheet over the child's head like a tent, covering the bowl too, so the medicated vapors can be inhaled for several minutes. This treatment loosens phlegm—clears air-passages—checks tendency to cough—relieves local congestion. Long after he relaxes into peaceful sleep, VapoRub's poultice and vapor action is still bringing relief—and you can get a good night's rest too.

VICKS VAPORUB

Mme. Edouard Benes, wife of the ex-President of Czechoslovakia, who, with her husband, is holidaying at Putney, England, was photographed for the first time since she arrived in England out walking with her niece, Mrs. Bohus Benes, with whom she is staying. This exclusive picture shows Mme. Edouard Benes (left) and Mrs. Bohus Benes.

Many Families Received Help

At the monthly meeting of the Board of Directors of the Family Welfare Association of Greater Victoria, held on Monday, Nov. 14, Rev. F. Comley, president, in the chair, Miss McLaughlin, general secretary, presented a report showing that 56 applications had been received and that 126 families had been given some form of service during October.

Of these families, 139 visits were made and 144 office interviews took place. Miss McLaughlin also presented a review of the functions of a family case working agency, showing that during the past three months 124 families had applied for help with the following difficulties: Marital problems, child behavior, adult behavior, mental illness, alcoholism, child care, old age, illness, unmarried mother, help in finding a wife and economic problems of various kinds.

Alderman W. H. Davies, chairman of the Fred Landsberg Sunshine camp committee, reported that the camp buildings had been repaired and painted and that arrangements had been made for the removal of the broom and fixing up the grounds.

Mr. N. F. Ferris read the treasurer's report, showing an expenditure of \$596.15 during the month. To date the association has received \$6,300 from the Community Chest.

Mrs. Barber Starkey, chairman of the clothing committee, reported underwear and stockings for both children and adults were badly needed.

Modern Etiquette

By ROBERTA LEE

1. Is it wise for a young man to keep asking for dates from a girl who has persistently turned him down?

2. Is it quite proper for a girl to go on to a dinner with a man she has just met at a cocktail party?

3. Is it correct for young people to introduce each other without using "Mr." and "Miss," as "Alice Manson, Ted Bailey."

4. May a girl accept an inexpensive piece of jewelry with a fraternity emblem on it from a man she is dating?

5. Should she accept an expensive piece of jewelry from him? What would you say if—

You are a girl and a young man whom you have just met and like, asks "May I call you up some time?"

(a) "Please do. You'll find our number in the directory—the McElroys who live on Twentieth Street."

(b) "I'd love to have you. Make it soon."

(c) Casually, "Yes, if you care to?"

Answers

1. No, he should take her hint.
2. Yes.
3. Yes.
4. Yes.
5. No.
Best "What Would You Do?" solution—(a).

HAVE EIGHT-HOUR DAY

BOSTON—Fifty-two hospitals in Massachusetts have an eight-hour day for staff nurses, and 46 hours a week for private duty nurses.

Cathedral Bazaar Opened By Dean

Branches of the Woman's Auxiliary of Christ Church—Cathedral combined their energies to good effect yesterday in a Christmas bazaar which netted over \$303 for their various undertakings.

Dean Spencer Elliott, in opening the bazaar, spoke of the church's responsibility, first to the Canadian Indian, then to the diocese of Honan in China "in these terrible days of invasion by the Japanese," and "to those who represent the Christian church in its missionary efforts in Japan."

Flowers, evergreens and gay streamers were used in the effective decoration of the many stalls arranged in the gymnasium. The Senior Evening Branch's fancy-work stall was by Mrs. H. W. Smith and Miss Nina Sill. The Business Women's Branch, under the direction of Miss Peggy Fast and Miss Hensley, had many attractive wares at their stall; the Girls' Branch stall was in charge of Miss Muttow; home cooking, Mrs. Cleves and Mrs. Dumbleton; plants, Mrs. Blandy; second-hand books, Miss Mary Lawson, M.B.E.; diocesan literature, Miss Lees, diocesan educational secretary.

The tea arrangements were in charge of Mrs. C. W. Brooks, assisted by Mrs. Hichins Smith and members of the branches. Mrs. H. V. Jills and Miss Venables were in charge of the receipts at the entrance to the tea-room. Miss M. Sill was general convener.

During the afternoon Miss Jean Elliott and Miss Peggy Walton played piano solos, which were much enjoyed.

HEADS DUNCAN W.A.

DUNCAN — Mrs. Hugh Charter was elected president of the W.A. of St. Mary's, Somenos, on Monday. Other officers are: First vice-president, Mrs. R. Nugent; second vice-president, Mrs. Lionel Henslowe; secretary, Mrs. A. Goddard; treasurer, Mrs. G. Tisdall; Living Message, Mrs. T. Tweedy; extra-cent-a-day, Miss Norcross; little helpers, Mrs. R. Nugent; Dorcas secretary, Mrs. Stretton Thompson; superintendent of Junior W.A., Mrs. G. Tisdall. Final arrangements for the sale of work to be held next week were made; Tea was served by Mrs. Charter, Mrs. Tisdall and Miss M. Skinner.

R.A.F. MAN KILLED

EDINBURGH (CP-Havas) — Flying officer Peter Marshall Hamilton was killed yesterday when his Royal Air Force plane crashed at Laurencekirk, Kincardineshire.

Portia on Her Own

BRENTFORD, Eng. (CP) — Summoned for dangerous and careless driving, Ann Mason, daughter of Lieut.-Col. C. K. M. Mason, Conservative M.P. for North Croydon, successfully conducted her own defence.

Clubwomen's News

Centennial Church Ladies' Guild met Tuesday afternoon with the president, Mrs. McCague, in the chair. Plans were made for the calendar tea on Friday, December 16, at 3.

The Victoria branch of the Home League, which is the "ladies' aid" of the Salvation Army, will hold its annual entertainment this evening at 8 in the Broad Street Citadel. A "Best Yet" program has been prepared, and Brigadier Byers, a retired officer visiting Victoria, will preside.

The First Spiritualist Church will have their regular silver tea tomorrow afternoon from 2:30 until 5 in the Sons of England Hall, 1216 Broad Street. The readers will be Rev. M. McLeod, crystal readings; Rev. W. L. Holder and Mrs. M. Fooks, tea-cups. The hostesses will be Mrs. J. Veness and Mrs. Blackmore.

A card party will be held under the auspices of the Queen City Chapter No. 5, O.E.S., in the Campbell Building, corner of Fort and Douglas Streets, on Saturday evening at 8. Convened by Mrs. C. M. Parrott and assisted by Mesdames McCague, White, Florence, Lane, Flack, Broadhurst, McDonald, Morris, Davey, Wardell, Wilson and Miss Hattie Edwards. "Pivot" contract and auction will be played. Good prizes, also a chicken dinner, contributed by the worthy matron, Mrs. W. R. Yule. Players please bring cards and score pads. Those wishing reservations please phone Mrs. Parrott, G 3255, or Mrs. McCague, E 2786. Refreshments will be served.

Victoria Chapter No. 25, Women of the Moose, met Monday evening in the K. of P. Hall, 1415 Broad Street, senior regent Mrs. M. Carter presiding. For the purpose of fully instructing the chapter on the exemplification of the new ritual, Deputy Grand Regent Mrs. E. Dean will attend on Monday evening, November 28. Mrs. J. Beadle was presented with a silver rose bowl by the senior regent, Mrs. M. Carter, for dressing the winging doll in the contest at the recent conference. All members who had birthdays in September, October, and November were given a small token of remembrance by the senior regent and, with Mrs. I. Bohannon accompanying, "Happy Birthday" was sung. Social convener, Miss D. Guelpha, reported the financial

Old Kentucky CIGARETTES

Orange Pekoe Blend "SALADA" TEA

success of the bazaar and frolic for Mooseheart Day, and thanked all who helped; she announced that on account of the deputy grand regent's visit on social night, a whistle drive will be held at her home, 2540 Fernwood Road, on Friday, November 25.

Centennial W.M.S. met Tuesday with the president, Mrs. M. Elder, in the chair and some 30 members present. Mrs. A. Glasspell was requested to order the contribution envelopes. Mrs. A. Couch asked that Christmas gifts for W.M.S. hospitals be brought to the December meeting. The secretary of temperance and Christian citizenship, Mrs. J. Mitchell, gave "the appalling amount" of revenue that the B.C. government and Victoria City derives from the liquor trade. Mrs. A. E. Farquhar reported 75 visits made by community friendship department. Correspondent secretary Mrs. S. S. Peat reported, and contributions received and the attendance of some associate helpers at the W.M.S. meeting was reported by Mrs. Cox. The treasurer, Mrs. H. G. Hambleton, gave an encouraging statement. A radio address given recently by Dr. Stanley E. Jones on his tour of the United States was read and comments made by Mrs. S. Howard. Mrs. Geo. G. Henderson reviewed the new study book, "The World in Canada," by Rev. J. I. McKay. Election of officers and presentation of annual reports will take place at the December meeting, it was noted. Mrs. M. Elde, Mrs. J. H. Alton and Mrs. H. B. Harris being the nominating committee.

The Wise Way to Buy Poultry

How to
BUY BY GRADE
Look for these
GRADE TAGS

GRADE-A

Identified by Red grade tag. Superb birds, ideal for the finest dinners. Well fleshed, especially fattened for tenderness and flavour.

GRADE-B

Identified by Blue grade tag. Good birds, but not as well fleshed, fattened or flavoured as Grade A.

GRADE-C

Identified by Yellow grade tag. Lowest graded quality.

No longer is it difficult for Canadian housewives to select exactly the quality of poultry they want. For poultry is graded according to standards established by the Dominion Department of Agriculture.

LOOK FOR THE GRADE TAG

There are three grades of poultry—A, B and C. Each grade may be readily identified by a coloured grade tag on the bird's breast or wing. The colours of these grade tags are: Red for Grade A, Blue for Grade B, and Yellow for Grade C. So—to be sure of getting the quality of poultry you desire—ask for it by grade; then see that the grade tag on the bird corresponds with the grade you request.

New life, lustre and color for hair with this new 4 Purpose Rinse

Does NOT Dye or Bleach

Lovalon effects the scalp and hair in no way, except to make it more radiant, beautiful, lustrous, and healthy. It is a pure, vegetable, odorless hair rinse—one of the very few hair treatments approved by Good Housekeeping Bureau. Package of 5 for 35¢ at drug and department stores. Trial size at 10¢ stores will Lovalon your hair!

No matter what else you do for your hair, regardless of what shampoo you use, for REAL beauty your hair needs Lovalon, the 4 purpose rinse. It does these 4 important things in one quick, easy operation.

1. Gives lustrous highlights.
2. Rinses away shampoo film.
3. Tints the hair as it rinses.
4. Keeps hair neatly in place.

You'll be amazed at the richer color, sparkling lustre and youthful, healthful glow.

You'll be pleased at how your hair stays in place—and how much longer your permanent or finger wave stays in.

By selecting one of the 12 different Lovalon shades, you can match and enrich the natural color of your hair or make it brighter or deeper. Don't be satisfied with ordinary rinses. Use Lovalon, the 4 purpose rinse. It does more, but costs no more.

torium.

Two bills will be laid before the parliament, one providing for the building of a forum and the other for the establishment of a community youth centre. Alan Chambers will lead the discussion in favor of the youth centre and

Nigel Morgan will lead the discussion on the forum. Both projects will then be discussed by the assembled delegates according to parliamentary procedure. Entertainment will be provided by Dorothy Cox's dancers and by the Chinese Youth Forum.

SAFEGUARD YOUR BABY'S HEALTH THE HEINZ WAY

Did you ever see a baby clamp his little mouth and refuse food? It needn't happen with your baby. He will like the natural colour, flavour and texture of Heinz Strained Foods. And this taste and texture is the same from day to day—month to month. That's important too.

Your mind can be at rest because Heinz Strained Foods are literally "just what the doctor ordered"—fresh, highest quality vegetables, fruits and greens prepared by the most modern methods of preparation, are retained to a higher degree by Heinz special methods of cooking and sealing. Get a supply of Heinz Strained Foods from your dealer today. They'll save you hours of shopping, cooking and "straining." The "Seal of Medical Approval" is on every tin. Also the Heinz 57 trademark, sign of purity the world over.

A helpful booklet "What Shall I Feed my Baby?" sent free. H. J. Heinz Co., Toronto.

Heinz STRAINED FOODS

SPECIAL OFFER NEW! NEW! BABY FOOD SERVER

Set of two glass dishes in metal holder. Heat and serve baby's food in them. Use for refrigerator storage, too! You'll want these containers for serving and storing baby's foods. Send labels from 6 tins of Heinz Strained Foods with 50¢ to H. J. Heinz Co., Dept. 306, Toronto. Buy six tins today and get your food-server right away.

SIT-DOWN STRIKE

"I'm 65 and I'm staging a 'sit-down strike' of my own. I've quit work because I have a cheque coming in every month as long as I live."

You, too, can have a guaranteed retirement income. If you can save \$8 a month* you can make certain of a cheque for \$25 every month beginning at 65. You'll have

an income three times as large as your payments. And, in case of your death before 65, this same policy will pay your family \$905 immediately plus an income of \$25 a month for 10 years. Arrange with a North American Life man to talk over this double purpose income policy.

*Approximate rate at age 35.

Big Gain In B.C. Trade

Exchange of Good Increased 20% Last Year With Doubling Of Favorable Balance; U.S. and U.K. Leading Markets

British Columbia, as a province, increased its import and export trade last year by nearly 20 per cent to a total figure of \$280,890,772, according to the preliminary estimates of the Bureau of Economics and Statistics made public today.

This represented a gain from \$128,607,049 to \$160,222,857 in exports (about 25 per cent) and an increase from \$108,516,733 to \$120,667,915 in imports (about 12 per cent).

The result was the province's favorable balance of trade nearly doubled, increasing from \$20,090,316 to \$39,554,942.

The most substantial gains were made in the trade with Empire countries exclusive of the rest of Canada. B.C. increased its sales in these markets from \$44,109,656 to \$56,144,697 and increased its buying from them from \$16,674,529 to \$19,832,304. The favorable balance to B.C. was over \$26,000,000.

On other foreign markets B.C. improved its sales from \$32,719,207 to \$69,526,918 and increased its purchases from \$20,789,122 to \$22,968,425, establishing a favorable balance of \$46,500,000.

But in its trade with the other provinces of Canada imports gained more than exports. While exports gained some \$2,250,000 from \$31,006,283 to \$33,294,429, imports increased over \$6,500,000 from \$71,053,082 to \$77,867,186 for a net increase of \$4,525,958 in the adverse balance with other parts of the Dominion.

By a small margin last year the United States regained from the United Kingdom its position as the chief customer of the province. Exports to U.S. points amounted to \$43,184,498 against \$33,211,911 the previous year, while the United Kingdom took \$42,998,691 as against \$34,126,051 in 1936. There was a favorable balance of \$28,000,000 with the U.S. and \$31,000,000 with the United Kingdom.

Eastern Canada was the next largest customer, taking \$21,972,523 worth of goods from B.C. and \$33,363,172 worth to British Columbia. The prairies bought \$11,277,696 worth and sold \$14,504,014 to the province.

Fourth of the provincial markets was Japan which bought \$12,542,048 worth and sold only \$1,249,373 to the province. Sales to Japan increased \$1,500,000 in the year.

Australia increased its purchases from \$6,366,005 to \$8,713,549 and its sales to B.C. from \$578,386 to \$685,705.

Exports to Belgium increased

nearly three-fold from \$1,205,983 to \$3,801,571, raising this country from eighth to sixth place in the provincial markets.

China, on the other hand, with its war troubles decreased its buying from \$3,010,175 to \$2,942,555 and fell from sixth to seventh place.

South African purchases gained from \$1,658,047 to \$2,318,381 and French from \$1,097,548 to \$1,732,662. Germany jumped into the million dollar class for the first time in years with purchases worth \$1,225,937 against \$289,833 the previous year.

U.K. BUYING WELL UP

Great Britain increased its buying from the province in practically all lines during the year.

Out of \$4,561,270 worth of apples shipped to all markets the United Kingdom took \$2,770,003 worth, an increase of \$730,000.

Out of \$12,450,382 worth of canned salmon shipped, Britain took \$4,325,494, an increase of \$720,000.

The U.K. took \$12,805,189 worth of lumber out of \$33,249,102 shipped and took practically the whole of a \$2,676,120 trade in doors. This was an increase of \$800,000 in lumber and \$100,000 in doors.

In minerals Britain took \$10,886,174 worth of the province's \$16,958,641 of pig lead, and \$6,083,395 worth of the \$9,048,216 in spelter zinc. Its purchase of lead were up \$4,600,000 and of zinc up \$800,000.

The province's main forest product sales to the United States were \$6,454,324 worth of lumber, an increase of \$2,100,000; \$1,339,438 worth of logs, an increase of \$760,000; \$5,760,874 worth of shingles, a decrease of \$300,000; \$2,050,027 worth of poles and piling, an increase of \$1,000,000; and \$7,972,029 worth of pulp and paper, an increase of \$1,600,000.

In minerals the United States took \$7,261,790 worth of gold (the other \$11,882,639 of gold produced going to Ottawa); \$4,971,024 worth of silver; \$4,013,273

worth of copper concentrates; \$598,847 worth of metallic lead; and \$3,547,000 worth of coal. Its total mineral purchases were \$17,264,503, compared to \$13,280,341 the previous year. U.S. purchases of fishery products totaled \$648,609, and of farm products \$390,254.

Work Is Urged For Prisoners

E. E. Winch Asks Improvement of Oakalla Jail System

Demand for a revision of the system at Oakalla jail so that inmates would have more to occupy their time was made in the Legislature yesterday by E. E. Winch, C.C.F., Burnaby.

"The one topic of conversation among the prisoners is sex, sex, sex," said Mr. Winch. "Often a young man who goes in for an offence like stealing a car comes out of the jail a pervert."

When it cost on an average of 91 cents a day to keep the inmates and they produced an average of only 32 cents per day worth of goods, there was evidently something wrong, he said. Mr. Winch concluded the day's speaking in the budget debate, following Glen Braden, Liberal Peace River, and Thomas King, Liberal, Columbia.

He urged the government to relieve the overcrowded condition of mental hospitals by the construction of a psychopathic ward and special quarters for tubercular mental cases.

He said he believed many patients not really insane were confined in mental homes, as had been found in Ontario.

"I would suggest the government change its methods of commitment and discharge to these institutions, possibly by setting up a committee to consider the different cases," he said.

He complained that no eggs were allowed mental patients and that veterans got better diet than others.

When he protested the government's tardiness in preparing a special report on hospital conditions, Hon. George S. Pearson, Minister of Labor, said the report had been completed and would be made public shortly.

Mr. King urged the government to insist on examination of tuberculosis suspects and urged sterilization of the mentally unfit.

He put up an argument for the Page Croft immigration scheme, stating while there were practical difficulties it would be worked out by united effort.

The light that we see coming from Mizar, the middle star in the handle of the Big Dipper, and Alcor, its companion star, actually started on its way 75 years ago.

Golden Age For Babies

BABIES born in this modern age have so much better chance of growing up big and strong and healthy! We know so much more about their feeding and care. We know now, for instance, the great value of evaporated milk as an infant food. And Irradiated Carnation Milk is being used in so many thousands of homes because babies do thrive on it. And we know the absolute need for "sunshine" Vitamin D for babies and children, so that is why Carnation milk is irradiated for an extra supply of it. You know that Carnation milk is always safe (sterile), uniform (no matter where you buy it), convenient (needs no boiling, keeps without refrigeration until opened), more digestible than other forms of cows' milk. Also enjoy every day Carnation's rich, creamy smoothness in all cooking and in creaming cereals and coffee.

Write for these Carnation books. "The Contented Baby" is free. The Carnation Cook Book, containing a host of ideas and recipes, with full-page, full-colour illustrations is 15¢ (postpaid). Carnation Company Limited, Abbott Street, Vancouver

Milk Men Vote To Continue Scheme

Milk producers of the Fraser Valley have voted overwhelmingly to continue their compulsory marketing scheme and for a single sales agency.

Hon. K. C. MacDonald, Minister of Agriculture, reported the result of the vote taken recently which showed 1,892 in favor of

the scheme against 335 opposed. On the single agency question 1,845 voted in favor and 364 against.

SAFETY GLASS STANDARDS
NEW YORK—Safety glass standards drawn up by the American Standards Association and co-operating bodies are now the legal requirements in 24 states, the American Standards Association reports here.

Of the remaining states, three have their own requirements, one

provides that it must be merely non-shattering, another expects to adopt the requirements of the Interstate Commerce Commission (now applicable to buses and trucks carrying on interstate business), two accept reports of tests made according to provisions drawn up by the National Bureau of Standards, and three provide that safety glass must be approved by specified state departments. Two have no requirements, while 11 states do not require its use in motor vehicles.

The association has been campaigning for adoption of its standards, drawn up under the association's auspices by makers and users of the shatter-proof products.

The earwig has the most unique way of folding its wings of any known insect. The wings fold like a fan until nearly closed, then is bent back and tucked under the wing covers, almost completely out of sight.

NERVOUS NED
HIS TROUBLE WAS SLEEPLESS NIGHTS

No Oriental Discussion

Legislature Votes Against Its Introduction After Heated Argument; Situation Delicate, Says Premier Pattullo

The Legislature yesterday voted 27 to 17 against discussion of the British Columbia Oriental situation in the House after Premier Pattullo told members the situation was a delicate one and any resolution passed on the subject might embarrass the Dominion government.

The matter came before the House when McGregor Macintosh, Conservative, the Islands, rose on a question of privilege to ask why his resolution on the Oriental situation had been ruled out of order by the Speaker.

He then moved his resolution be allowed to reach the order paper and it was on this motion that the House divided. The Conservatives and C.C.F., with Dr. J. J. Gillis, Liberal, Yale, voted for the motion. H. G. T. Perry, Liberal, Fort George, who previously spoke in favor of the resolution reaching the order paper was out of the House for

the division. Attorney-General Wismer and Mrs. Paul Smith were also out of their places.

IN PUBLIC INTEREST

Capt. Macintosh said he felt his privileges as a member of the House were infringed upon when a resolution in the public interest was not allowed on the order paper.

Mr. Speaker Whittaker ruled the resolution out of order on a number of grounds. Leader, said nothing was of greater importance to British Columbia than the question of Orientals, and it was going too far to rule such a resolution out of order.

Premier Pattullo said Capt. Macintosh and Mr. Maitland were engaged in "grand stand" play and recalled the Opposition questions and resolutions that had been ruled out of order when the Tolmie government was in power.

"Is the Speaker going to allow every irresponsible statement from the Opposition to get on the Votes and Proceedings? There is too much tendency in this House to take up matters that affect Ottawa. This province has representatives, on both sides, in the Dominion House. How much influence is such a resolution likely to have in Ottawa? Send down such resolutions and you will find them thrown in the wastepaper basket," said the Premier.

"My friends are breaking the rules of this House to gain a little kudos with the public. It will be a judgment on the Speaker, who is trying to be very fair, if this resolution passes."

KEPT FEW OFF

Mr. Speaker Whittaker Inter-

vened to say he had kept a very few questions from the order paper. He could have kept many more off, he added.

L. H. Eyres, Conservative, Chilliwack, said the resolution was not an irresponsible one, but of the utmost importance to the people of British Columbia and that the word Oriental appeared in the Elections Act.

H. G. T. Perry said he thought a resolution should be allowed to reach the order paper unless it was flagrantly out of order and that the House should "gratuitously consent" to allow the resolution on the order paper.

"In my opinion the resolution does flagrantly violate the rules," Mr. Speaker Whittaker said. "Apparently the people in the Dominion House don't realize the importance of this question to British Columbia," said R. W. Bruhn, Conservative, Salmon Arm.

"The Prime Minister of Canada realizes its importance and he so told me," Premier Pattullo replied.

"Then he hasn't done anything about it," Mr. Macintosh said.

"He has done something and he will do more," the Premier replied.

When E. E. Winch, C.C.F., Burnaby, commenced to speak on other resolutions and questions being left off the order paper, the Premier asked: "Are we going to have a general debate?"

"I don't think it will do any harm to have a general discussion," the Speaker ruled.

Mr. Winch said the Opposition was not altogether satisfied with the manner in which the Speaker handled many of the questions. Harold Winch, C.C.F., Vancouver East, said Opposition members did not know what happened to many of their questions and resolutions.

In closing the debate, Capt. Macintosh said the Premier had "attempted to draw a red herring across our trail," and he urged members to consult their own consciences before voting.

BRADEN SPEAKS TO YOUNG LIBERALS

Member Tells of Potentialities of Peace River Valley

Mr. and Mrs. G. E. Braden, M.P.P. Peace River Area, were welcomed last evening at the regular meeting of the 10th Century Young Liberal Association. E. W. Bourque, president, was in the chair.

Mr. Braden, who is the youngest Liberal member in the legislature, spoke on the Peace River Country, telling of its development and hinting at the wonderful prospects which the future seems to hold for the valley and its people. He showed moving pictures including a reel of the first oil well being drilled in British Columbia. Mr. Braden said that the plans of the Hon. Premier Pattullo to drill for oil in the Peace River were by no means a "wild-cat" scheme, but geological formations and other clues showed that every probability of a good yield would reward such adventure.

Messrs. James N. Bawden and A. Corby were appointed delegates to the Mock Parliament at the Y.M.C.A. on Thursday, November 17.

New members welcomed into the association were the Misses Enid Bates, and Anne Adamson and A. Lourand, Peter Henderson, Herbert Clapham and Les Batless.

Nominations for the election of officers to be held at the annual meeting on December 6 were opened and will close on November 22.

James N. Bawden announced an association dance in Liberal headquarters on Friday evening November 18 at 9.

Says Unemployment Is Badly Handled

The unemployment situation in Canada today is a disgrace to any country and will never be cured by regimentation such as exists under the provincial forestry and public works projects, L. H. Eyres, M.P.P. for Chilliwack, told the Ward Five Conservative Association Tuesday.

Mr. Eyres said all B.C.'s other problems would be cured if a solution were found for unemployment. He urged a conference of premiers and two representatives from each province to convene until some solution was found for the difficulties.

WAS COVERED WITH PIMPLES

Miss Anita Mader, Upper Branch, N. S., writes: "My face was full of nasty red pimples from some external irritation. I tried many remedies without success. But after using Cuticura Soap and Cuticura Ointment I was relieved." For FREE sample, write Cuticura Dept. 85, 286 St. Paul St. W., Montreal.

Favors Peace Pass Highway

Glen Braden Tells Legislature It Would Be Better Than Monkman Road

The people of the Peace River country favored a road through the Peace River Pass rather than through the Monkman Pass, Glen Braden, Liberal, Peace River, told the Legislature yesterday when speaking in the budget debate.

A Peace River Pass highway would bring about a payroll, "and that is what we want," he said. "I am not opposed to the Monkman Pass road, but the Peace River Pass road should have the primary consideration of this government. The people of my constituency feel development will follow."

In one section of the Peace River Country, Mr. Braden said, new lands were being opened up and two new townships had been surveyed.

FOR YOUNG PEOPLE

"This district is something for the young people to look forward to," he said. "I've seen young people come into the Peace from Alberta with very little money and now they own their own homes and fine farm equipment."

MIXED FARMING

"We of the Peace River country are proud of our agricultural possibilities and great mineral resources and our business, but what we need is a payroll, some industry to give the farmer a local market. I don't think real prosperity will come to British Columbia until the Peace River area is developed and there is an outlet by road and rail to other parts of the province. We must have an outlet to the rest of British Columbia."

People had gone into the country north of the Peace River area with the idea a railroad would be built. Now they found themselves isolated and were still waiting for markets.

"We have a great opportunity for mixed farming in our country. We can produce the present time hog production is low, but we are able to produce the coarse grains which are ideal for hogs."

He said his country was ideal for grain, which was one of the chief industries of the people. He said two fairs were held last season at North Pine and Dawson Creek, and the first horticultural fair was at Dawson Creek. The number and variety of flowers being grown there were increasing all the time, he said. The people were looking forward to the Alaska Highway and intended to join it, no matter over what route it was built.

STRAWBERRY VALE

Members and friends of the Colquitz Tennis Club organized an enjoyable bridge party in the Institute Hall on Monday evening. Four tables participated. The honors went to Mr. and Mrs. George Austin. Refreshments were served by Mesdames B. Hitchcox, R. Mackie and C. K. Barlow. A similar function will be held November 28.

The Strawberry Vale Badminton Club held a very successful 500 card party last week-end in the Strawberry Vale Community Hall, 12 tables taking part. First prize winners were Mrs. M. Fox and Mr. Roy Peters.

The members of Wilkinson Road United Women's Auxiliary held their November meeting on Tuesday afternoon at the home of Mrs. George Jones, Carey Road. Mrs. J. Hoy presided and led the devotional period. Encouraging reports were presented by Mrs. A. Allison, secretary, and Mrs. W. Jewell, on behalf of the treasurer, and special reference was made to the great success which had attended the recent sale of work. During the business period it was decided to procure a supply of the New Church Hymnary for congregational purposes.

Committee Urges Japanese Boycott

At a meeting of the Committee for Medical Aid for China a resolution was passed urging a boycott of Japanese goods, including silk stockings, toys, Christmas tree decorations, chinaware, Japanese oranges, tinned crab and tinned tuna fish.

For some time the committee has been sending medical aid to China and, as part of its program to help the Chinese, it desires to assist in bringing economic pressure to bear on the Japanese government through the institution of a boycott of Japanese goods.

The rooms at 1426 Government Street are open for bandage-making and for receipt of donations on Tuesday and Wednesday mornings from 9 until 12, as well as weekday afternoons from 2 until 5 p.m. The committee thanks the public for gifts of linen.

Tories Opposed to Islands Division

Addition of North Saanich to Saanich in the division of the Islands riding in the provincial electoral district, was protested by the North Saanich Conservative Association last night.

Speakers at the meeting were: R. L. Maitland, K.C., Leader of the Opposition; Capt. M. F. Macintosh, M.P.P. for The Islands, and J. A. Paton, M.P.P. for Vancouver-Point Grey.

Conservative policies bearing on agriculture were discussed by Mr. Maitland. Capt. Macintosh reiterated his opposition to breaking up of the Islands riding, and Mr. Paton spoke on some of the current issues of the session.

Church Work in Western Canada

Rev. Frank Smye Tells of Mission Among Farmers

"The English Church is anaemic in western Canada owing to the lack of permanency of administration in the isolated areas," Rev. Frank Smye, head of the Brotherhood of the Good Shepherd, Milestone, Saskatchewan, told a meeting at the Memorial Hall last night.

Mr. Smye had just completed five years work in a 5,000-square mile area in southern Saskatchewan, making his circuit of the lonely homesteaders with no resources in the way of money but "faith in God."

The brotherhood system of traveling from farm to farm and preaching among the isolated settlers had been successful, however, he said. There were not enough settlers to support a minister and many of those who had set up parishes in the area in which he worked, did not stay long in most cases. One church had been opened and closed 17 times in nine years, Rev. Smye said.

PEOPLE UNDERMINED

In his five years of work in the prairie district he had found poverty, climate and general hardship had undermined many of the people both mentally and physically. In many sections children had never heard of God and had never said a prayer. The youth of the area would have inclined to Communism if it had not been for the work of the missionaries in the lonely regions. Other denominations had done a great deal of work on the prairies and it was time the English Church "borrowed some of their zeal and discarded some of the old systems of the church if it were to be successful in western Canada."

One of the reasons for his advocacy of discarding the old systems of the Church in use in the Old Country was the fact the church in Canada was not endowed. The principle of faith on which the brotherhood system worked, without monetary assistance, had been more than successful from the beginning. Those who worked in that capacity had never gone hungry or wanted for the necessities of life, the speaker said.

CHURCH STRONG

In a following address Dean Spencer Elliott said "The numerical strength of the Anglican Church in Victoria should be encouraging to its members."

"The Church of God survived the Roman Empire; it is blasphemy to think it won't survive Hitler," the Dean declared in his short message to the meeting. Bishop H. E. Sexton presided.

Lawn Bowling

The annual meeting and prize distribution of the Victoria West Lawn Bowling Club took place on Tuesday in the clubhouse with a good turnout of members.

The election of officers for the year 1939 resulted as follows: Honorary president, N. S. Fraser, president, Major A. A. Warder, 1st vice president, N. R. Hill, 2nd vice president, H. Baker, sec. treas., A. R. Hooper, auditor, F. J. Wood, executive members, J. Smith, D. McMillan, I. A. McKelvey, D. McMillan, J. Walker. Delegates to the Greater Victoria Lawn Bowling Association Major A. A. Warder, A. R. Hooper, J. Walker, D. McMillan, and I. A. McKelvey.

Prizes for the season were awarded to the men by president Major A. A. Warder and to the women by the president, Mrs. N. R. Hill, as follows:

MEN

Single—Cup and 1st prize, J. Smith; 2nd J. Davies. Doubles—1st D. McMillan and T. Guest; 2nd J. Davies and T. Tooby. Triples—1st T. Clements; 2nd R. Stewart; 3rd D. Campbell. Goodwill Cup and 1st prize—

SUGGESTS VOTE ON SECESSION

Saanich School Board Told View Royal Wants Independent School Area

The Saanich School Board last night decided to recommend to the Department of Education that residents of View Royal should be granted a plebiscite to decide whether or not they wished to secede from the Saanich school area and have their independent school district.

The recommendation followed a report from Inspector W. G. Gamble, of the department, that 90 per cent of the View Royal residents were in favor of secession. Mr. Gamble said the consent of the school board was necessary before the government granted the wish.

While the trustees felt they did not want to influence any decision of the people they pointed out such action would increase school costs to the residents concerned. Inspector Gamble said 75 children from the area now attended Saanich schools, including 63 at Craigflower, two at Strawberry Vale and 10 at Mount View High.

If the people felt they were paying too much for school costs it would be best to let them go on their own, said Trustee S. F. Miles. His opinion was the cost would be twice as much under a separate area.

Trustee Leslie H. Passmore thought the people should be shown they were letting themselves in for higher taxes and were not at present being overcharged.

First Through Cargo

It was the gallant clipper ship "Titania" in 1889 that won the honour of landing the first through cargo from London to Vancouver. She took 105 days, from land to land, for her memorable voyage.

An epoch-making event. Yet six years previously, in 1883, the Canada Life, already at the mature age of thirty-six, had issued its first policy to a resident of British Columbia.

With the same enterprise so apparent in pioneer days, the Canada Life continues to safeguard the future of its policyholders and their dependents. Each week an average of approximately five hundred thousand dollars is distributed to those it serves.

"I FEEL AS ALIVE AND YOUNG AS MY DAUGHTER!"

"My husband and I have been taking Phyllosan tablets for a few weeks—and are both feeling many, many years younger. I actually feel fully as alive and young as my daughter! Everybody is astonished at my appearance, as up to six weeks ago I was looking so tired and ill."

(Original can be inspected on application.)

The woman who writes this enthusiastic letter is by no means describing a rare experience. For she is but one of the many thousands who are taking advantage of the remarkable re-energizing and vitalizing potentialities of PHYLLOSAN. Are you letting middle-age push you out of the mainstream of life? Are you permitting the unnecessary physical let-down of premature old age to rob you of your capacities for robust happiness? You don't have to suffer the weariness, sleeplessness, or the "shot" nerves that make you uncompanionable and afraid of the future... if you are willing to help yourself by helping your body rally and rebuild its wasted powers—with Phyllosan.

The product of fifteen years of research and study by one of the world's foremost physicians (Dr. E.

Bueri, Professor of Medicine at the University of Berne), Phyllosan (pronounced Fill-O-San) is recognized as a reliable reconditioner for persons of all ages. Phyllosan, whose principal ingredient is produced from purely natural sources, cooperates with the natural processes of your body to help restore your blood, your nerves and your entire system to renewed vigour. And the beneficial effects of Phyllosan are lasting.

Phyllosan is so easy to take: Just two tiny tablets before each meal (3 times a day)—yet take them regularly and the results will more than gratify you. Thousands of men and women—once weary and rundown—owe buoyant, new vigor and spirits to Phyllosan. Don't lose any time! You, too, can be one of this happy, vital throng. Start taking Phyllosan tablets today—there's nothing quite like them! Buy PHYLLOSAN from your druggist... 85c. (\$1.50 for double quantity).

Distributed by MCGILLIVRAY BROS., LTD., TORONTO.

PHYLLOSAN TABLETS help enrich your blood... strengthen your nerves... build up your reserves of vital power. Recommended by many physicians, especially to those past 40.

Tweedsmuir Trip Of Great Value

Publicity Worth \$3,000,000, Parsons Tells Committee

Deputy Commissioner, Thomas W. S. Parsons of the B.C. Police told the public accounts committee of the Legislature this morning that Lord Tweedsmuir's visit at a year to the new Tweedsmuir Park had been worth not less than \$3,000,000 in publicity to British Columbia.

An article on the trip appeared in the National Geographic Magazine. News reports had been carried to England, Australia and South Africa that he knew about. And Lord Tweedsmuir, he expected, would one day write a book on his experiences following Alexander MacKenzie's trail across Canada.

The public accounts committee was investigating the government's expenditure on the Governor-General's visit. Total cost was not given as part of the money was for development of the park.

R. L. Maitland, K.C., Conservative leader, questioned items for the hire of two private airplanes and the loan of two R.C.A.F. planes for the party, costs of linen and salaries to officials.

Mr. Parsons, who directed the arrangements for the trip, described how at the last minute the entire plan of the trip had to be revamped when plane pilots found they could not land with supplies at Tanya Lake. As a result, he said, some of the money spent on the advance preparations was lost, although it was worth while in developing the park.

"We were much perturbed," he said, "because we knew the Governor-General's heart is in this country and he wanted to see as much as possible of it."

Instead of following the MacKenzie route directly plans were switched to make side trips from base camps, he explained.

Mr. Parsons said the original plan was one of the most difficult he had traveled in 34 years of frontier work. On a preliminary exploration of the route some members of the party almost drowned, he said, and it was then decided the trip would be too difficult for the Governor-General.

Planes and boats were essential for travel in the area because there were no roads and it was practically virgin country.

Resorts both on the Bella Coola side of the park and the Cotsa Lake side reported this season had been their best, he told the committee.

Vancouver Firms Are Incorporated

The following companies, all of Vancouver, were incorporated during the week at the Parliament Buildings: Gresham Securities, \$10,000; Acme Manufacturing Company Ltd., \$10,000; Wing Motors Ltd., \$10,000; Pacific Veneer Co. Ltd., \$250,000; Standard Utilities Ltd., \$10,000; Hotel (1938) Ltd., \$50,000; Sailors' Chocolates Ltd., \$10,000; Kiddies Toggery Ltd., \$10,000; Terminal Holding Company Ltd., \$25,000; Wolfe Creek-Aluivals Ltd., \$25,000; Northwest Oil Co. Ltd., \$25,000; and Great West Lithographers (1938) Ltd., \$10,000. The Kelowna Prospecting Company of Kelowna was incorporated for \$50,000, and under the Societies Act was registered the Dunbar Lawn Bowling Club of Vancouver.

LONG-SLEEVED DRESSES

Smart styles in good-grade materials

Sizes 14 to 44. Values to \$9.00. 5.00

Dick's Dress Shoppe

1224 Douglas St. Phone 2-1532

Notes of the Legislature

Farmers of B.C. received an average of 30 cents a pound for 22,500,000 pounds of butter produced in the province last year, Hon. K. C. MacDonald, Minister of Agriculture, replied to questions.

Out of 14,991 parcels of land offered this fall in the first provincial tax sale in six years 951 were sold, Hon. John Hart, Minister of Finance, replied to questions.

Night sittings of the House will start next Monday, according to a resolution placed on the order paper today by Premier Pattullo. The House next week will sit from 2 to 6 and from 8 onwards.

Mail By Air Only To Empire Areas

All First Class Mail Travels Exclusively By Air, Postmaster Announces

All first class mail, letters, postcards and other articles prepaid at letter rate, posted in Canada for most British Empire countries, is carried exclusively by air beyond England under the Empire air mail scheme as the normal and only means of transmission, Victoria Postmaster, George Gardiner, announced today.

Mr. Gardiner's announcement came as a result of the great number of undelivered letters which have been passing through in ignorance of the fact. The rate is 6 cents per half ounce or fraction thereof and 4 cents for postcards.

Accordingly, letters with less than the normal stamp rate result in extra dues to be paid by the receiver. The areas in which the above rate is necessary include Egypt and surrounding British territory in North Africa, South Africa, Palestine, British India, Malaya, Malay States and the Straits Settlements.

First class mail from Canada to these territories is sent to England, and from there to the addressed areas by air mail only.

Policy Stated on Unemployables

Definition of Relief Group Stated to House

An explanation of the government's policy in determining who are employables and who are unemployables among relief cases was given by Hon. George S. Pearson, Minister of Labor, in reply to questions in the Legislature.

This policy has been a sore point with Victoria's relief department for some time. Mr. Pearson said the Employment Service of Canada has the responsibility of deciding who are unemployable and who are employable.

"Unemployable persons," he said, are those who are more or less permanently precluded from seeking or accepting gainful occupation by reason of physical defect, mental defect, infirmity due to age, habitual alcoholism, etc., and in the cases of women, those who are widows or are separated from their husbands, or are unmarried mothers whose full time is required to care properly for dependents. Prior employment and physical history, and personal contact are used in determining a person's employability or otherwise."

Children over the age of 16 still attending school are classed as unemployables.

Robert Duncan, nightwatchman, reported to city police last night a rear window of the General Warehouse was broken during the night. Mr. Duncan heard the crash and when he investigated he found no one around.

A permit for a four-room home was issued late yesterday to W. E. Dunn for a dwelling at 1044 Queens Avenue. Value of the house is set at \$2,200.

B.C. Advertising Accounts Studied

Opposition Leader Wants Copies of Ads During 1937 Election Campaign

Advertisements placed in newspapers by the province last year were the subject inquiry in public accounts committee of the Legislature this morning by R. L. Maitland, K.C., Opposition Leader.

Major Gordon Smith, director of the Department of Information, appeared before the committee and explained the various vouchers.

The bill of the Stewart-MacIntosh advertising agency of Vancouver for \$14,212 was gone into in detail. Major Smith explained the government advertised through an agency with no additional cost, the newspapers paying the agency 15 per cent of the total advertising bill.

When asked by Mr. Maitland about another advertising campaign which cost \$5,649 and was done through the same agency, Major Smith said it was handled by the Premier's office. His office, he said, did not prepare the copy or place the advertisements.

"What was the nature of this campaign," Mr. Maitland asked. "Educational," Major Smith replied.

"Oh, I see, these are pre-election advertisements," Mr. Maitland said. The Opposition Leader noted a voucher for \$312.72, the cost of a half hour speech delivered over the radio by the Premier on April 23, 1937.

He studied other advertising bills of the same period and said: "I think I'll have to check these advertisements because the significance of the dates might prove interesting." He asked for copies of the advertisements placed at that time.

The vouchers showed \$702 had been paid the Los Angeles Herald; \$486 to the Los Angeles Examiner and \$140 to a newspaper in Butte, Montana.

The Clarke Advertising Agency of Victoria had been paid \$6,000.

Replying to a question by Herbert Anscomb, Conservative, Victoria, Major Smith said his department had no contact men, but did all its advertising through newspapers and a syndicate which covered 1,100 newspapers in the United States. Displays were also made last year at outdoor fairs in Los Angeles and Chicago.

"You use the printed word, then, not the human voice, other than the Premier's speeches," Mr. Anscomb said.

R. W. Bruhn, Conservative, Salmon Arm asked for information about all relief camps and what had been done with the equipment.

Mr. Maitland said: "I want someone to tell me about mining and forestry camps—any camps and about roadwork in March, April and May of last year."

RESCUED MAN IS IMPROVING

Condition of James Reid, Sidney, who survived a battle with the elements while clinging all night Tuesday to a submerged launch off Coal Island, was reported slightly improved at Rest Haven Sanitarium today.

Reid was taken to Rest Haven after his cries for help were heard yesterday morning and he was rescued by two fishermen.

Dr. E. C. Hart, coroner, announced today he had conducted an inquiry into the death of John Kerr, who was with Reid and was drowned and there was no evidence of other than an accidental drowning.

He said no inquest would be held.

A permit for a four-room home was issued late yesterday to W. E. Dunn for a dwelling at 1044 Queens Avenue. Value of the house is set at \$2,200.

TOWN TOPICS

Entry of Kirk's Coal Company office on Broad Street was reported to police overnight. A quantity of stamps was stolen.

Bank clearings in the city for the week ended today were \$1,452,750, according to a statement from the Victoria Clearing House. Figures for the same period last year were \$1,831,458.

The Local Council of Women this week accepted the offer of the city parks superintendent to provide a shrub of barberry as a memorial shrub for the grave of the council's late president, Mrs. Cecilia Spofford.

The Victoria Society of Friends have sent \$50.87 to Friends House, London, as a result of the appeal on behalf of Spanish refugee children. Of this amount \$16.32 was donated and \$34.55 was raised at the white elephant sale and tea held last week.

The claim for \$120 made by Peter Brogan against Frederick and Eugene Emson, being the sum paid by Mr. Brogan for repairs to the launch Glenda, was allowed in a County Court judgment handed down by Judge H. H. Shandley late yesterday.

The request of the Vancouver Island Inboard Association for permission to use Elk Lake as racing headquarters was refused by the city water board yesterday following receipt of a petition signed by 34 Elk Lake residents protesting against the proposal.

The pipes and drums of the 2nd Battalion (M.G.) the Canadian Scottish Regiment, announced that, due to the death of the Honorary Colonel of the Battalion, Lieut. Col. F. A. Lindsay, the annual ball scheduled for tomorrow has been indefinitely postponed.

Decorative light streamers in the downtown area will be reconditioned and new lights used where bulbs are dim to increase the festive air of the city during the Christmas period, the city lights department stated today. All work will be completed by December 10 and the lights will be put on December 15, continuing through every night until January 2.

The Christmas meeting of the Children's Leaders' Council will be held this evening at 8 in First Baptist Church, Cradle Roll, Beginners' and Junior Sunday School workers, are expected to be present. Rev. Bryce H. Wallace will conduct the devotional exercises which will be followed by business of the various groups. A social time will follow.

At the weekly luncheon meeting of the Real Estate Board of Victoria in Spence's private dining-room tomorrow at 12.30, the subject, "Real Estate Market Conditions," will be discussed. J. A. Bennett will deal with business property, H. D. Patterson, residential lots; H. M. Hall, commercial premises, and H. Lethaby, municipal features.

Removal of alternate trees on Wellington Avenue, between Dallas Road and Faithful Street, and of the big popular outside 930 Conlinton Street, will be recommended to the City Council by the parks committee. At its meeting yesterday the committee decided it would be unable to care for the boulevard garden on Yates Street by Central Junior High, and referred the upkeep of the plot to the school board.

A Scottish concert will be presented by the First United Church Choir on Friday evening at the Chamber of Commerce. An interesting program of Scotch music and dancing has been arranged. The following artists are on the program: W. C. Fyfe, Pipe Major Donald Cameron, Miss Carol Menzies, Mrs. Charles Goodwin, J. Bell, R. Morrison, J. MacBeth, A. Pollock, J. Petrie, Mrs. W. H. Wilson and G. H. Farker.

RELIEF ACCOUNTS WILL BE SPEEDED

Payment of the provincial government's share of unemployment relief to the municipalities will be speeded up as the result of a meeting this morning of the Fraser Valley Reeves' Association, supported by the executive of the Union of B.C. Municipalities, and E. H. Griffiths, director of unemployment relief for the government.

The municipal accounts will be sent to the government as soon as possible and the details will be checked by Mr. Griffiths. The provincial government will then satisfy the Dominion Government of their accuracy before payment is made.

The municipalities' delegates yesterday met the ministers of finance, municipalities and labor and presented their case for lightening the burden of relief to the municipalities of the province. Out-of-town delegates left this afternoon for the mainland.

Market Bright For Home Sites

Greater Demand Shown This Year For City Residential Properties

An increased market for residential property in the city is indicated in land sale figures for the first 10 months of this year, released today by the city assessor-collector's department.

Actual values have been less for the period than they were during the same 10 months of 1937, but the number of sales is 30 per cent above last year.

The trend was taken as an encouraging sign at the City Hall, the indication being that an increased number of homes were being put up and the basis of taxation broadened.

Up to October 31 this year sales totaled 583, against 448 at the same date in 1937. During October of each year the number of sales was exactly the same—62.

Values were lower last month than during the corresponding month last year, the comparative figures for sales being \$117,989, against \$154,105, and for wills and probates \$15,740, against \$32,480. The totals were \$171,119, against \$250,775. Transfers were higher this year, the monthly figure being \$83,330, against \$49,190 in October, 1937.

Since the beginning of the year sales have totaled \$909,525, against \$1,175,284 at October 31, 1937. The value of all property which has changed hands during the last 10 months is \$2,020,895, against last year's 10 month total of \$2,289,184.

Farm Problems Discussed Here

Farmers From Every Section of Province Meet Agriculture Minister

Ten farmers, representing every farming district of British Columbia, came to Victoria this morning to discuss their problems with Hon. K. C. MacDonald, Minister of Agriculture, and the agriculture committee of the Legislature.

They form the advisory board of the Farmers' Institute of British Columbia. After meeting the minister this morning they gathered to discuss the resolutions which they brought from every farmers' institute of the province. They also talked today with J. B. Munro, Deputy Minister of Agriculture and superintendent of farmers' institutes.

Dr. W. R. Gunn, livestock commissioner, gave an address this morning on the horse disease that took such toll in the East Kootenays last summer.

Dr. W. A. Carrothers, chairman of the Coal and Petroleum Control Board, told the delegation farmers' institutes would be allowed to continue sale of coal and oil without a license to their own members, but that a license would be needed where they sold to outsiders.

In the delegation are H. D. Evans, Duncan; Henry Bose, Surrey; W. S. Palmer, Kamloops; J. W. Miller, Tappen; O. B. Appleton, Proctor; A. B. Smith, Cranbrook; Thomas Jamieson, Pouce Coupe; Walter Hogg, Quesnel; R. Blackburn, Prince George, and C. J. Kille, Telkwa. The secretary of the board, W. J. Bonavia of Victoria, accompanied the party to the minister's office.

Before returning home they will meet the members of parliament who represent their various districts.

ROTARY HAS FIRST FULL ATTENDANCE

For the first time in the more than 1,200 meetings since its foundation, the Victoria Rotary Club today sat down to luncheon in the Empress Hotel with every member present.

The 100 per cent meeting, brought about through the joint work of William Lemm, chairman of the attendance committee, and the club's president, G. Hamilton Harman, was also the first for any club of such a size in the northwest Rotary district.

During the luncheon an illuminated testimonial was handed by A. V. Clarke to Carl Pendray, who was celebrating his birthday. The scroll named Mr. Pendray, one of the three remaining charter members of the Victoria club, "Victoria's 100 per cent Rotarian No. 1."

There were 115 members present at today's luncheon. The full membership of the club is 118. The three absentees have all made up their attendance for the week at clubs in the cities where they have happened to be. T. J. Goodlake at Bournemouth, England, B. R. Cicieri at Alberni and P. L. Naysmith at Vancouver, Wash.

OBITUARIES

GILES—Rev. Hugh A. McLeod conducted funeral services yesterday afternoon for Mrs. Sarah Anne Giles at McCall Bros' Funeral Home. Interment was in Colwood Burial Park, with the following as pallbearers: D. Phillips, A. S. Miller, H. Harrison, W. B. L. Holmes, H. Wood and A. Hyham.

McFADYEN—Funeral services for Mrs. Ann McFadyen were held in the Thomson Funeral Home yesterday afternoon. Rev. J. E. Bell conducted the services and the following acted as pallbearers: Frank Pomeroy, W. V. Merriam, E. Wiltshire, Frank Hooper, A. McKinnon, and Albert Bevan. The remains were cremated at Royal Oak Crematorium.

PURDY—John Alexander Purdy, aged 66 years, died yesterday at his home, 635 Harbinger Avenue. He was born at Granby, Quebec, and came to Victoria two years ago. He leaves his widow, three sons, John and Bernard, of this city, and Harry, of Saskatchewan; four daughters, Mrs. S. W. Belyea, Victoria; Mrs. J. L. Lake, California; Mrs. S. P. Woodside, Prince Rupert, and Miss Thelma Purdy, at home; one sister in Massachusetts, and one brother in Saskatchewan. Pastor E. W. Robinson will conduct funeral services at Hayward's B.C. Funeral Chapel Monday afternoon at 2, followed by interment in the Royal Oak Burial Park.

RAYNOR—Thomas Raynor, aged 89 years, died at the family residence, "Holme Lock," Carey Road, at an early hour this morning. Mr. Raynor was born in Nottingham, England, and resided for 45 years in Winnipeg. He came to this city eight years ago. He leaves his widow, four sons, Harry of Norwood, Manitoba; Ernest, Arthur and William of Winnipeg, Man.; eight grandchildren and two great-grandchildren. The remains are resting at McCall Brothers' Funeral Home, and the funeral will take place on Saturday afternoon from Garden City United Church at 2. Rev. William Allan will conduct the service after which interment will be in Colwood Burial Park.

MRS. R. A. BROWN DIES SUDDENLY

Had Resided Here Since 1860; Well-known Church Worker

Mrs. Barbara Brown, widow of Robert Austin Brown and eldest daughter of the late Duncan and Jessie Cameron, well-known Victoria pioneers, died very suddenly last evening, aged 80 years. She had resided here since 1860.

Born in a mining camp at Cavallus County, California, in 1858, she came with her parents to this city at the age of two years, and had resided here ever since. She was an esteemed member of St. Andrew's Presbyterian Church and an active member of its Women's Missionary Society. She leaves a wide circle of friends who will mourn her passing.

Her husband predeceased her in 1912 and she leaves three daughters, Miss Jessie Cameron Brown, Wellesley, Mass.; Mrs. W. T. M. (May) Barrett, 1333 Mitchell Street, with whom she had resided, and Mrs. R. F. (Barbara) Blandy, 2800 Somers Drive, Oak Bay; one son, George Stairs Brown, Portland, Ore., and two grandchildren, Walter Stairs Blandy and Beryl Austin Blandy.

The funeral will be held tomorrow afternoon, leaving Hayward's B.C. Funeral Chapel at 2.50, and proceeding to St. Andrew's Presbyterian Church for services at 3 by Rev. J. L. W. McLean. The remains will be cremated in Royal Oak Crematorium, and it is requested no flowers be sent.

B.C. Coal Output Is Down Again

Production of coal in British Columbia in October was below the 1937 level, according to the monthly report of the Inspector of Mines.

Total output for the province was 111,687 tons, compared with 129,683 tons in October last year. Vancouver Island produced 58,535 tons, against 55,674 tons last year.

Bureau Answers Foreign Queries

Answering inquiries from all parts of the world about living conditions in Victoria is one of the jobs of the Victoria and Island Publicity Bureau. In the last few days the bureau has had two such inquiries from England, and one each from India, California, Manitoba and Alberta.

The letters mostly ask about rentals, cost of houses, taxes and the possibility of setting up in business.

Clean—Moist—Invigorating Air for Home or Office

With the

Electrohome Air Conditioner

Portable

Dust, germs and pollen are removed by water washing and filtering. The clean air, properly moistened, is then returned to the atmosphere.

Model illustrated, \$49.85

NOTE—The Electrohome is endorsed by local dealers as a definite protection against colds and winter ills.

Until you install an Electrohome you cannot know how much better you'll feel.

DICTATORSHIP SWIFT TO STRIKE

R. L. Maitland Warns Rotarians Democracy Must Be Steadily Guarded

Canadians must be continually on guard if they wish not to lose the things which make up democracy—the right to think, to speak, to act, to worship and to live their lives in their own way. R. L. Maitland, K.C., Conservative leader in the Legislature told the Rotary Club at a luncheon in the Empress Hotel today.

"If you look at the signs that have left democracy, you will find always that dictatorship came about quickly without warning when it was least expected," he said.

He traced the rise of Hitler, who in the six months after he came to power had removed all but his supporters from public office, taken control of the spoken as well as the written word, done away with every trace of parliamentary government, and started the schools teaching the children that he was the man who came from heaven.

Canadians, he said, must be continually on watch to prevent the same thing happening here. There were people who through ignorance or for subversive ends advocated a dictator for the Dominion. Democracy must crush out such ideas if it were to remain.

Democracy, which meant liberty of thought and conduct within the limits of laws governing only the behavior of man toward his fellow men and the community, had stood the test in the British Empire of two of the greatest emergencies the world had ever gone through—the Great War and the depression.

"But do not think that we have not got a social obligation," he said. "We must advance with the times and take care of things that we never thought of taking care of before, things such as the problems of the machine age and the surplus of labor."

"Let us so govern ourselves that the love of liberty will be made stronger, and so that in generations to come we shall never find the things we hold so dear endangered."

Mr. Maitland was introduced by Herbert Anscomb, M.P., and thanked by G. Hamilton Harman, president of the club.

R. W. Mayhew, M.P., introduced Reginald Genn as a new member.

SEVERE ALASKA QUAKE RECORDED

A severe earthquake was recorded on the seismograph of the Dominion Meteorological Observatory, Gonzales Heights, at 7.59 last night.

Officials of the observatory estimated the epicentre was 1,565 miles from Victoria, in the vicinity of Kodiak Island, Alaska, near the spot where a severe earthquake was centred on November 10.

LONDON (AP)—The seismograph on the West Bromwich Observatory early today recorded strong earth tremors continuing over a two-hour period. The centre of the shocks was believed to be somewhere along the coast of Alaska.

A split nail on the second toe of their hind feet is used as a comb and toothpick by beavers.

MUNICIPAL NOTICE

**CITY OF VICTORIA MUNICIPAL
ELECTION, DECEMBER, 1938**

For MAYOR:
For ALDERMAN (Five (5) to be elected);
and

**For SCHOOL TRUSTEE (Three (3) to be
elected).**

PUBLIC NOTICE is hereby given to the
Electors of the Municipality of the City
of Victoria that I require the presence of
the said electors in the Council Chamber,
at the City Hall, Douglas Street, in the
aforesaid City, on THURSDAY, the FIRST
day of DECEMBER, 1938, at TWELVE
o'clock noon, for the purpose of electing
persons to represent them as MAYOR,
ALDERMEN (Five (5) to be elected), and
SCHOOL TRUSTEES (Three (3) to be
elected).

**The mode of Nomination of Candidates
shall be as follows:**

**The Candidates shall be nominated in
writing; the writing shall be subscribed
by two electors of the Municipality as
Proposer and Seconder, and shall be de-
livered to the Returning Officer at any
time between the date of the notice and
TWO o'clock p.m. of the day of nomina-
tion; the said writing may be in the form
numbered 2 in the schedule of the "Muni-
cipal Elections Act," and shall state the
names, residence and occupation or
description of each person proposed, in
such manner as sufficiently to identify
such candidate; and in the event of a poll
being necessary, such poll shall be opened
on THURSDAY, the EIGHTH day of
DECEMBER, 1938, at the building known
as the "Victoria Public Market Building,"
situated in the City of Victoria,
aforesaid, between the hours of NINE
o'clock a.m. and SEVEN o'clock p.m.**

**Of all of which every person is hereby
required to take notice and to govern
himself accordingly.**

**Given under my hand at Victoria, British
Columbia, this 17th day of November, 1938.**

M. F. HUNTER,
Returning Officer.

NOT THE LEAST OF THE PLEASURES
and privileges that come of reading the
Times is the fact that it serves as a
reliable buying guide. The Times adver-
tisements are full of things you want to
know about, the things you need and buy
every day in the year. In this way the
Times becomes a signpost to bargains, an
index of dependable stores, a proclaimer
of things that are new! Read Times ads
... and profit by them.

**Western Film
At Columbia**
If it is true the West casts a
strange spell on visitors, it is
equally true that no two people
are affected exactly the same
way. In "Partners of the Plains,"
which opens today at the Colum-
bia Theatre, Gwen Gaze, a Lon-
dener, comes to the L.D. Ranch
full of scorn for everything about
it and stays to fall in love with
William Boyd, while her eastern
fiance, John Warburton, becomes
Boyd's implacable enemy, and
even enters into a plot to kill
him.
Boyd is seen once again as that
hard-riding, square-shooting cow-
boy, "Hopalong Cassidy," in a
Clarence E. Mulford story of old
Arizona.

ST. JOHN'S A.Y.P.A.
Monday evening St. John's
A.Y.P.A. were hosts to the Angli-
can Sunday school teachers of
Victoria. At the close of the
meeting refreshments were
served by Miss Ruth and Deirdre
Jardine, Miss Helen Foxall, Miss
Eileen Griffin and Miss Audrey
Measmore.
There will be no meeting on
Monday, November 21, but all
members are invited to attend
the parish "at home" in honor of
the 25th anniversary of the com-
ing to St. John's of Rev. Canon
and Mrs. Chadwick, to be held
this evening.
On November 23 St. John's
A.Y.P.A. will sponsor a recital by
the Ariel singers under the direc-
tion of Mr. Frank Tupman in the
schoolroom of the church at 8.
Tickets are now on sale by the
members.

Woman Suffered 10 Years
"Since coming here from England
10 years ago," writes a married
woman, "I have suffered badly from
rheumatic pains. I bought medicine,
lotions, liniments, and have taken
connections until I was tired spend-
ing my money. I heard of Kruschen
Salts so often, that I thought one
day I'd try that. By this time my
knees were frequently full of ter-
rible pains. I bought a bottle of
Kruschen, and took a teaspoonful
every morning. It had no effect.
But my husband said 'Persevere!'
Give it a chance to act.' Well, I
did and before long my knees were
nearly normal. I kept on, and be-
lieve me I am not like the same
woman. I walked four miles the
other day and felt fine, whereas
before I could hardly walk across
the floor." (Mrs. E.A.)
What more need be said about
the relief that Kruschen Salts can
bring to sufferers from the pains
and stiffness of rheumatism?

**Astronomers Hear
Of Rocket Travel**
Possibilities of traveling into
space were discussed by Miss
Phoebe Riddle and Leonard Hop-
kins at the meeting of the Astro-
nomical Society at the Y.W.C.A.
last night.
The president, Dr. Gordon
Shaw, who introduced the speak-
ers, said that the talks were
timely in view of the panic
caused by the recent broadcast
of a story by H. G. Wells de-
scribing his ideas on an invasion
of earth by men from Mars.
The study of rocketry was be-
coming more important in re-
cent years and there were several
experimenters in Canada, United
States and on other countries.
Miss Riddle said. One of the
chief experimenters today was
Dr. R. H. Goddard who, as a
result of publicity following an
experiment, was given a grant
by Daniel Guggenheim and the
Smithsonian Institute.
The biggest problem confront-
ing scientists was the fact that
it would leave the earth entirely.
A speed of about seven miles per
second would have to be obtained
in order to do this. The possibility
of a rocket carrying its own fuel
being able to do this was very
doubtful, if not impossible, Miss
Riddle said. Experts then thought
of the idea of shooting a rocket
up several hundred miles so that
it would resemble another moon
with its orbit around the earth.
This "moon" would then be used
as a base from which attempts to
conquer outer space could be
made.
Leonard Hopkins pointed out
some of the more technical diffi-
culties to be overcome before
rocket travel was possible. The
difficulty of navigating a rocket
was explained. The slightest
error at the beginning of a flight
would result in considerable error
at the end of the flight and dis-
astrous results to anyone travel-
ing.

**Grads May Perform
For King and Queen**
EDMONTON (CP)—King
George VI and Queen Elizabeth
will see the world champion Ed-
monton Grads in an international
women's basketball match next
May if plans of a special commit-
tee appointed last night are suc-
cessful.
The suggestion was made when
100 supporters of the famous
quintette gathered at the club's
23rd birthday party and Hon.
Solon Low, provincial treasurer
and president of the Alberta
Amateur Basketball Association
was named chairman of a com-
mittee of three to arrange the
game.
A game with Harry Wilson's
Chicago all-stars likely will be
arranged if a Grad game is put
on the itinerary of their Majes-
ties' tour of Canada next spring.

**SIGN ARMSTRONG
FOR TITLE BOUT**
Will Meet Al Manfredi
December 5, Providing
He Beats Garcia
CLEVELAND (AP)—Henry
Armstrong, lightweight and wel-
terweight boxing champion of the
world, agreed today to defend his
welter title on the Cleveland
News Christmas fund show here
December 5. His opponent will
be Al Manfredi of Los Angeles.
Cefeiro Garcia, who meets
Armstrong in a title fight in New
York, November 25, also agreed
to terms and will defend the title
against Manfredi if he whips
Armstrong.
The Cleveland bout will be 15
rounds.
Solly Kreiger of Brooklyn,
world middleweight champion-
ship claimant, will meet Carmen
Barth of Cleveland in a 10-round
nontitle bout on the same card.

DIVIDENDS
Royalty Oil Company Ltd.,
50 cents per share and a special
dividend of 25 cents per

Now at Atlas**
**'My Lucky Star' Opens
Today With 'Alice in
Wonderland' Ballet**
Bert Clark, manager of a Los
Angeles skating rink, had a firm
claim on Sonja Henie's friendship
when she arrived in the film
city, by virtue of his interest in
skating. Eventually Sonja got
him into the Twentieth-Century
Fox studio as her skating stand-
in and now he is realizing a long-
held ambition—actually to appear
before the cameras.
The only trouble is that no one,
not even his family, will recog-
nize him. Clark appears as the
White Rabbit in Sonja's ice ballet
of "Alice in Wonderland" in her
triumph, "My Lucky Star," open-
ing today at the Atlas.

**Frankenstein and
Dracula on Bill**
Two of the cinema's strangest
motion-picture creations, "Frank-
enstein" and "Dracula" have been
combined to make a double hor-
ror bill which opens Friday at the
Dominion Theatre.
Arch man-made fiends, life-
breathing electrical machines and
human vampires, have their sinis-
ter parts in these "shocker films."
Boris Karloff as the man-made
monster in "Frankenstein,"
and Bela Lugosi as the over-
shadowing work of supporting
players.

**'Three Blind Mice'
Oak Bay Feature**
Loretta Young Starred
In Vivacious Comedy
Romance With Joel McCrea
Sparkling, scintillating and
gay, with all the vivacity that is
so much a part of gorgeously
feminine Loretta Young, "Three
Blind Mice," her newest roman-
tic portrayal of a woman who
can't see, opens today at the Oak
Bay Theatre as a rousing hit,
with Joel McCrea sharing the
star honors.
This 20th Century-Fox produc-
tion, under the personal super-
vision of Darryl F. Zanuck and
directed by the master of gay dra-
matic touches, William A. Seiter,
is a veritable bombardment of
charm, glamour and palpitating
splendor.
Not content with the choice of
three of Hollywood's most beau-
tiful women as the "Three Blind
Mice," the producer has built a
cast around Stephen Powys as
yet unproduced stage play that
includes another trio of film-
land's best-known masculine
names.

CAPITOL THEATRE
All the thrills, danger and
romance of life on the Northwest
Frontier of India is shown at the
Capitol Theatre in "Drums,"
Alexander Korda's magnificent
technicolor production. Sabu,
the sensational child star of "Ele-
phant Boy" fame, is featured
with Raymond Massey, Roger
Livesay, Desmond Tester and
Valerie Hobson at the head of the
cast.

Japanese Admiral Visits Hongkong

Move to Make Friendlier Feeling With British Navy

HONGKONG (AP)—Japanese and British naval commanders are trying to establish a friendlier feeling between the two navies.

Vice-Admiral Shiozawa, commander of the Japanese fleet in South China waters, and Vice-Admiral Sir Percy Noble, commander of British forces at Hongkong, conferred today on "the betterment of Anglo-Japanese naval relations," a Japanese communiqué said.

Admiral Shiozawa arrived aboard the cruiser Myoko to repay a visit to Canton by the British admiral last week. The warship was the second of the Japanese fleet to enter Hongkong.

since the arrest of two British sailors at Keelung, Formosa, caused considerable resentment in October, 1936.

The sailors took photographs of fortifications, for which the British consul at Keelung apologized.

Admiral Shiozawa declined to say when the Pearl River, main waterway to Canton, would be reopened to commerce, but promised that when commercial traffic was permitted all nations would have equal rights.

He said his conferences with Sir Percy had been "very satisfactory and friendly."

The Japanese admiral flatly denied reports a Chinese counter-offensive was making progress toward Canton.

Pilots' Lookout

Queen Victoria at William Head this morning bound for Fraser River.

Bidevind due off Race Rocks at 2 p.m. bound for Vancouver.

Ms. Aorangi due at William Head at 7.15 tonight.

Around The Docks

Running an hour behind schedule, C.P.R. liner Aorangi will not arrive at William Head quarantine station until 7.15 tonight and should be alongside Rithet Pier at 8.15, according to word received by James Macfarlane, general agent for C.P.R., from Captain T. V. Hill by wireless.

Aorangi will discharge 60 tons of freight here. She also has mails and cargo for this port. Among the who's who on the passenger list are Charles J. Burchell, K.C., Mrs. Burchell and Miss Ida K. Burchell of Toronto and Hon. L. C. Webster, Canadian senator from Montreal, all of whom have been attending the British Columbia Commonwealth Relations Conference in Australia.

Ss. Gracia of the Donaldson Line is expected to arrive here Tuesday night. She will tie up at Pier No. 1, Rithet docks, and unload a general cargo from the United Kingdom and bananas from Guayaquil, Ecuador, South America. Completing here she will proceed to either Seattle or Vancouver.

C.P.R. steamer Princess Elaine, her repairs completed and underdressed, was floated out of drydock yesterday. This morning she was at the Union Oil docks taking on oil and later moved over to Belleville Street docks where she will remain until her superstructure is painted. She should be ready to take over her Vancouver-Nanaimo run again Saturday provided weather conditions are favorable for painting. She will relieve Princess Victoria which will return to Victoria to tie up for the winter.

Albertolite, Imperial oil tanker, was floated into the drydock this morning to undergo general overhaul. Yarrows Limited is doing the job.

King Bros. report the arrival of several vessels to take on lumber at Ogden Point next week. Margaret Bakke is due Monday to load for the United Kingdom. South and Goodwin are due Tuesday to stow lumber for the British Isles. Anglo-Indian will come in for cargo for the United Kingdom on Wednesday and on Thursday Lady Glenlynn and Idlesleigh are expected to stow lumber for the same destination. King Bros. also report that Winkfield will be at Cowichan Bay tomorrow, where she will remain until Monday loading lumber for British ports. Loch Maddy is due at Cowichan Bay next Tuesday to stow lumber for Australia.

CHICAGO—Stimulated by unofficial reports the 6c British tariff against American wheat had been canceled, Chicago wheat prices rose 1½ cents a bushel today.

Persistent reports that a large purchase of United States wheat by Great Britain, 10,000,000 bushels, was being negotiated, also stimulated the market. Canadian wheat was bought today by Great Britain.

Wage Increase for 600 Men Is Signed

MONTREAL (CP)—An agreement providing for wage increases for 600 men was signed yesterday between the Canadian National and Canadian Pacific Railway and the Brotherhood of Steamship and Railway Clerks, Freight Handlers, Express and Station Employees, Brotherhood Vice-president F. H. Hall announced last night.

While Hall refused to name the amount of the increase, an authoritative source said it was three cents an hour and retroactive to November 1.

Aviation Company Gets Many Orders

GANANOQUE, Ont. (CP)—E. A. Link, president of the Link Aviation Company plant here said last night that on a recent trip to England, Eire and Switzerland, he had obtained enough orders to keep the plant busy for 19 months. The company manufactures "trainers," ground air planes equipped for training pilots in blind flying.

The plant is now preparing an order of 150 trainers for the British War Department, and will continue on this order for another seven months before the new orders will be started. The plant employs 50 skilled workers.

Spoken By Wireless

November 16, 8 p.m.—Shipping: WELLINGTON COAST, left Port Alberni, 2.30 p.m., bound for Southampton. KATHA STEPHEN, bound Port Alberni, 1.30 miles south of Estevan, 4 p.m. WILFREDTON, bound Vancouver from Rio de Janeiro, 6.50 miles south of Tootoon, 1.30 miles from Victoria, bound for Yokohama, at noon.

CLYTHMOR, bound Vancouver from United Kingdom, 7.15 miles from Estevan, 1.30 miles from Victoria, bound for GRIFFO, left Long Beach, Cal., at 6.30 p.m. for San Marco.

November 17, noon—Weather: Victoria—Overcast; drizzle; northeast, light; 36.2; 44; moderate chop. Pachuca—Overcast; westerly, light; 30.2; 47; heavy swell. Swire—Overcast; southwest, light; 30.4; 49; light westerly swell. Cape Lazo—Overcast; calm; 30.2; 40; light swell.

LONDON (CP)—Imperial Airways plans to deal with the flood of Christmas mail by installing for the first time a complete land plane route from England to Calcutta, India, it was announced yesterday. An ensign airliner and 20 other land planes will be used.

Wheat Two-point Rally

WINNIPEG (CP)—An export business of 750,000 bushels influenced a firm trend in today's Winnipeg wheat market and values closed ½ to ¾ higher, November 60, December 59½, May 62½ and July 63.

Wheat was reported to have been shipped out of both coasts and a cargo left Vancouver for the United Kingdom. Aside from the good export the market was featureless.

Commission house selling was believed due to firmness at Chicago caused by reports the six cent preferential duty on wheat entering the United Kingdom will be removed under the United Kingdom-United States trade agreement.

Liverpool closed ¼d higher to ¼d lower and Buenos Aires dropped 2¼ to ¼ cents at noon. Cash wheat trade was slow. Pit trade in coarse grains brought out interest in barley.

Uncle Ray

Beds, Sleep and Dreams

IV—SWEET DREAMS

Recently a five-year-old boy said to his father, "Oh, why did you wake me up? I was having such a sweet dream!"

"What were you dreaming about?" asked the father.

"About flowers and ice cream cones," said the little boy.

"Sweet Dreams"

That must have been a sweet dream, but there was one thing the child could comfort himself about. If he hadn't been awakened, the chances are he never would have known about the dream.

Dreams come and go through the night. There may be such a thing as "dreamless sleep," but we cannot be sure about it. People tend to forget their dreams. It is possible for a person to have half a dozen dreams in a night, and in the morning not remember a single one well enough to tell about it.

If we are awakened during a dream, or right after it, we are likely to find it clearly impressed on our mind. If we tell someone about it, we probably shall remember it much longer. If we do not speak of a dream, it tends to fade away.

Usually, I do not remember what my dreams were about, even though I may know I have dreamed during the night. If I tried hard, I might now bring back to mind a dozen dreams I've had in my life.

About 20 years ago, before I made my first trip to Europe, I had a dream which I still remember. It was a pleasant dream on a summer night. I was floating through the air on my way to Italy. Down below I could see the ocean water, and a cool breeze made the passage enjoyable. At length I came to an Italian city, and went skimming above one of the streets. I saw signs on the stores, but they were in strange writing.

Before I landed on firm soil, I woke up. It was early morning, and a cool breeze was blowing in through an open window. Was my dream made up to explain that breeze?

Some persons have reported dreaming of snowstorms or ice before they woke up and found themselves too cold. Others have had nightmares when they went to bed soon after eating heavy meals.

Years ago, Prof. H. von Hilprecht was puzzled about two Babylonian tablets when he went to bed one night. While he slept, he had a dream in which an old Babylonian priest spoke to him, and told him the meaning of the tablets. Waking up quickly after that, the professor was able to solve the problem which had puzzled him the night before.

That is only one of many cases in which people have figured things out during sleep. Even though we are resting, something goes on in the brain while we are asleep.

HOROSCOPE

Friday, November 18, 1938

The seers point out that the stars believed to inspire a war spirit among government leaders also affect hands of business enterprises.

Mars today is in an aspect read as disquieting and likely to affect individuals as well as nations. Many domestic quarrels are indicated. Scandals may be numerous in the coming winter.

This evening brings promise of good news for the nation which is a constantly growing power in a troubled world. Stimulation of business and scientific success is prognosticated.

Writers and publishers are to profit greatly in the winter's trade. Changes in newspaper and magazine ownership are indicated by the stars.

New inventions will add impetus to the popularizing of television.

Persons whose birthdate it is have the augury of a year of exacting experiences. Discords of every sort should be carefully avoided. Money losses are foreseen.

Children born on this day probably will be ambitious and determined. Subjects of this sign may have artistic talents.

Pigeons lay their eggs in pairs, and each pair of eggs produces a male and a female.

SIDE GLANCES By George Clark

"She's beat us to the pick of the vegetables again this morning, but I'll bet she hasn't cleaned up her kitchen yet."

Dorothy Dix's Letter Box

DEAR DOROTHY DIX—I am a girl of 18, entering college. I want to live in the dormitory, but my parents want me to stay with my grandfather and grandmother, who live in the town in which the college is located. If I stay with my grandparents there will always be a houseful of company, which annoys me. Also, there will be my aunt, whom I have never liked, and her children, who are the noisiest, meanest brats who ever lived. I would feel obligated to work while my grandmother worked, which is every second of her waking time, and I would not feel free to have any company or to go out with boys, because grandmother would think she would have to sit up and see that I returned safely. Don't you think it would be better for me to go to the dormitory instead of to my grandparents?

M. V. B.

Answer: I certainly do. The experience that a girl gets in going off to college and being on her own and living in a dormitory with other girls is just as valuable to her as anything she is taught in her classes.

As long as a girl is at home she is more or less of a baby. Her parents do her thinking for her and make all of her decisions. They tell her what to do and what not to do. They take care of her clothes, and she has no responsibilities whatever.

But when she goes off to college she is checked out into the world, where she has to stand on her own feet and make her own way. Nobody pampers and spoils her. Nobody puts up with her selfishness and unreasonableness because they are Mary's little ways. Nobody is careful not to wound her feelings that she keeps spread all over the place. She has to observe, rules and take discipline, and like it, and be a good scout, or else be ostracized.

By the time she has been away four years Mother and Father have got used to thinking of her as grown up and having a right to adult privileges, and she has found out how ignorant and helpless she is and is willing to be guided by her elders.

But no young girl should go to live with her grandparents. It isn't fair to either of them, because Grandpa and Grandma should not have their peace of mind wrecked by coming in contact with modern manners and customs and clothes, and the girl should not have her happiness destroyed by being forced to dress and do as Grandmother did when she was a girl.

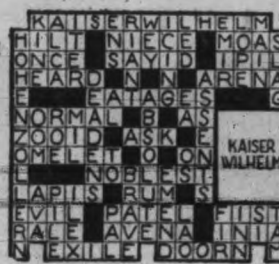

DOROTHY DIX.

JAMESON MOTORS LTD.
740 BRIGHTON ST. G 1161

IT'S A BUSY DAY—Taking the title of "world's richest baby" in his stride, Lance, little son of Count and Countess Haugwitz-Reventlow, is shown here en route to a London nursing home where his mother, the former, Barbara Hutton, was recovering from a dental operation.

A PORTRAIT OF LIEUT. GOVERNOR ERIC W. HAMBER—Guests at Government House recently have been admiring a fine portrait of His Honor the Lieut. Governor, from the brushes of Capt. J. G. Cromack, Assistant Secretary to the Lieut. Governor. Cromack has done considerable portrait work and is shown in the above picture standing beside his latest work.

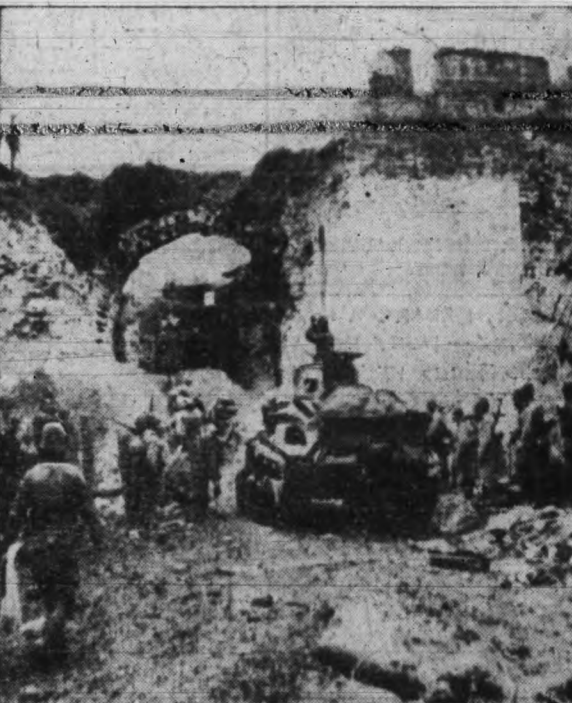

HERO—Sergeant George Sandy of the Black Watch, looks at the lock of a gate to the Old City of Jerusalem. In daring dash under fire, he sawed it off, aiding British to recapture city from Arab rebels.

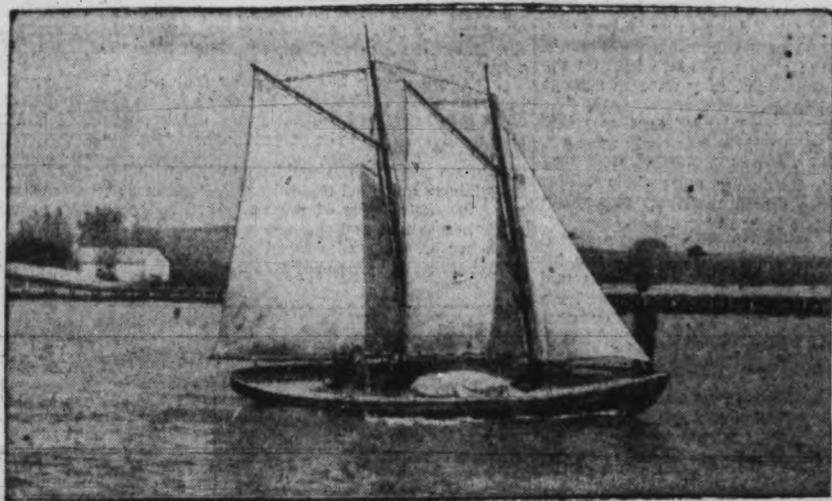

HEROINE—One Northumberland Fusilier keeps guard while another receives a drink from 17-year-old Nurse Estor. She displayed calm bravery throughout seven-day battle to drive Arabs from Old City of Jerusalem.

PATting JOHN BULL'S DOG—Mrs. Neville Chamberlain, wife of the British Prime Minister, paid a visit to the North Kensington Conservative Fair held recently at the Century Theatre, Westbourne Grove, London. In this photograph Mrs. Chamberlain is seen making friends with John Bull's dog while his master, a most imposing figure symbolic of Britain, looks on.

JAPANESE TANK FINDS GATEWAY TO CHINA—Through the dust and debris of battle, smashing over shell-crumbled walls, this Japanese tank frames itself in a ruined gateway near Hankow, blocking at least one "open door" in China.

FOUR END LONG VOYAGE IN SMALL SCHOONER—Bought in Halifax for use in Toronto as a training vessel, a 36-foot schooner, at one time a sword fisherman, was sailed to her new home port by four members of the Toronto division of the Royal Canadian Naval Volunteer Reserve. In charge during the voyage of nearly 2,000 miles was Lieut. Gordon Cumming, shown above in civilian clothes. His crew, shown with him, are, from left to right: Seamen Darnborough, Wardell and Jamieson. The schooner is shown as she left Oshawa harbor on the last, short leg of her long voyage from salt water to fresh.

ALCATRAZ DRAMA—The picture above has just been identified by Mrs. Royal C. Cline as being of her husband, the Alcatraz prison guard beaten to death at his post last May 23 in an escape attempt by convicts Lucas, Franklin and Limerick. Lucas and Franklin, left to right in top photo, are now on trial in San Francisco for the slaying of Cline; Limerick was killed in the attempted break.

KIDNAP VICTIM—Benjamin Farber, one of the victims of the kidnap gang that confessed the abduction and cremation of Arthur Fried of White Plains, N.Y., leaves the district attorney's office in a car after confronting Joe Saccoda, who police say, was trigger man of the ring. Farber is a Brooklyn businessman.

The Big Push that Began After the Big War

Wait, Mother—Ask Your Doctor First

Never Give Your Children Unknown "Bargain" Remedies To Take—Unless You Ask Your Doctor. Unknowingly You May Be Risking Their Health—Just To Save A Few Pennies

A MOTHER may save a few pennies giving her children unknown, unproved preparations. But the life of a child is precious beyond pennies. So—Ask your doctor before you give any remedy you don't know all about. When giving the common children's remedy, Milk of Magnesia, never ask for "Milk of Magnesia" alone—but always ask for "Phillips'".

Many children like Phillips' in the most palatable form—tiny peppermint-flavored tablets that chew like candy. Each tablet contains the equivalent of one teaspoonful of the liquid Phillips', and a big box costs but 25¢ at your drug store. A bottle of Phillips' liquid Milk of Magnesia costs but 25¢. So—it is a fact that anyone can afford the genuine. Careful mothers ask for it by its full name "Phillips' Milk of Magnesia."

Because for three generations Phillips' has been favored by many physicians as a standard, reliable and proved preparation—marvelously gentle for youngsters.

PHILLIPS' Milk of Magnesia
